▼ White Birch

Malus Floribunda Atropurpurea

TO OUR CUSTOMERS

As Rosedale enters its 52nd year here, it is our sincere desire to make this not only our biggest year but a more pleasant and more profitable year for you, our customer.

For your greater convenience, we have completely rearranged our salesgrounds—bearing in mind such time-saving procedures as having material ready-to-go, more salespeople in rush periods and promptest possible deliveries.

We have gradually extended the list of varieties offered so that now we have growing here at Eastview one of the most assorted lists of ornamental plants in the East. Less satisfactory varieties have been discarded and the best of new varieties are being added constantly. The selection of new varieties offered is based not only on outstanding bloom or foliage characteristics but also on hardiness, ease of culture, and freedom from disease and pests. We are always interested in the way plants behave in *your* grounds. Your repeat orders are our greatest satisfaction.

We believe that your interests are best served by visiting the nurseries and making a personal selection. This is always possible at Rosedale.

Howard C. Taylor

DROUGHT

Due to severe drought conditions existing throughout this area, some injury can be expected from the Winter and in early Spring. Provided there is adequate water in reservoirs, liberal early Spring watering is recommended to cut down this difficulty. Remember enough water must be used to soak through to the full depth of the root system.

Fortunately, drought has not affected growth here at the nurseries to any great extent. Moisture tests during the Fall showed a higher water content than was available anywhere else in the county which was tested. This is reflected in the stock offered this Spring.

LOCATION: 3 1/4 miles north of Elmsford on the Saw Mill River Parkway and on Saw Mill River Road, Route 9A Entrance on both roads—1 mile south of the Hawthorne Circle on Saw Mill River Parkway—1 1/2 miles north of Eastview on the Saw Mill River Parkway.

HOURS: 7:30 to 6:00 p.m. Monday through Saturday; 9:00 to 5:00 p.m. Sundays March 12 through May 28, 1950.
VISITORS ALWAYS WELCOME

One of America's Most Beautiful Native Trees—White Flowering Dogwood (*Cornus florida*)

FLOWERING TREES

The loveliness of a Flowering Tree is a constant delight to the beholder. At the height of the blooming period; when in full leaf; when fruiting, as so many Flowering Trees do; and during the brilliance of Autumnal coloring, they are always an exceptionally fine addition to the landscape. A solid investment on the part of the homeowner, for they increase in beauty as the years pass.

All the varieties listed below are hardy and carefully chosen to give complete satisfaction, no matter whether planted as lawn specimens, or in the border, planted among evergreens or espaliered on bare wall surfaces. Although complete individual descriptions are given, we group some of these Flowering Trees in order to aid you in your planning and selection.

PLANTING BARE ROOTS MATERIAL:

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water *thoroughly* twice a week.

FOR PLANTING B&B MATERIAL, PLEASE SEE DIRECTIONS ON PAGE 6 of EVERGREENS

Redbud (*Cercis*)

COLORFUL FRUIT:

<i>Malus</i>	<i>Flowering Crabs</i> , all varieties
<i>Crataegus</i>	<i>Hawthorn</i>
<i>Sorbus aucuparia</i>	<i>Mountainash</i>
<i>Cornus</i>	<i>Flowering Dogwood</i>

Franklin Tree (*Franklinia alatamaha*)

FLOWERING TREES—Continued

CERCIS—Redbud or Judas-tree

C. canadensis. This is a large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. A picturesque tree in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. Best transplanted when young. We offer the following fine stock for early transplanting. M

5 to 6 ft.....\$5.00	6 to 7 ft.....\$7.50	7 to 8 ft.....\$12.00
----------------------	----------------------	-----------------------

CORNUS—Dogwood

C. florida (White Dogwood). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green turning a brilliant red in Autumn. M

2 to 3 ft....\$2.50	7 to 8 ft..\$17.50
3 to 4 ft.... 4.00	8 to 9 ft.. 22.50
4 to 5 ft.... 7.50	10 to 12 ft.. 30.00
6 to 7 ft....12.00	12 to 14 ft.. 50.00

C. florida rubra (Pink or Red Dogwood). Similar to our native White Dogwood in habit and form but with masses of pink flowers. Pink Dogwoods are extremely scarce and all sizes may not be available. M

2 to 3 ft....\$5.00	6 to 7 ft..\$20.00
3 to 4 ft.... 9.00	7 to 8 ft.. 25.00
4 to 5 ft....15.00	8 to 9 ft.. 30.00
5 to 6 ft....18.00	9 to 10 ft.. 35.00

C. Kousa (Kousa Dogwood). White flowers borne after the leaves come out. Large, Strawberry-like crimson fruit. M

2 to 3 ft....\$4.00	5 to 6 ft..\$9.00
3 to 4 ft.... 6.00	7 to 8 ft....15.00
4 to 5 ft.... 7.50	8 to 10 ft....20.00
10 to 12 ft.....\$30.00	

Star Magnolia (Magnolia stellata)

CRATAEGUS—Hawthorn

Saucer Magnolia (Magnolia Soulangeana)

Arnold Crab (Malus Arnoldiana)

Our FLOWERING TREES will be at the peak of bloom in May. Plan to visit the Nurseries

C. Arnoldiana. Bright crimson-fruited Hawthorn of medium size. Zigzag branches with stout spines. Interesting, upright shape. M

4 to 5 ft..\$5.00
5 to 6 ft.. 7.50
6 to 7 ft..10.00
7 to 8 ft..15.00

C. Phaenopyrum (Washington Thorn). Upright tree of medium size. Blooms are clustered white and fruit is brilliant red. Ideal hedge form or will make a fine specimen tree. M

3 to 4 ft..\$2.75
4 to 5 ft.. 5.00
5 to 6 ft.. 7.50
6 to 7 ft..10.00
7 to 8 ft..15.00

C. Oxyacantha Paulii (Paul's Scarlet Thorn). Double scarlet flowers. Late Spring bloomer. One of the finest. M

4 to 5 ft..\$6.00
5 to 6 ft.. 8.00
6 to 7 ft..10.00
7 to 8 ft..15.00

Laburnum Watereri

Sargent's Crab (*Malus Sargentii*)

FLOWERING TREES—Continued

FRANKLINIA—Franklin Tree

F. alatanamaha (*Gordonia*). A small tree of extraordinary beauty in the Fall. Attaining 20 ft. in height, the graceful branches sweep the ground if allowed natural growth. If the lower branches are removed, the trunk appears smooth, silky and grey. The marble-like buds open about September 1 to large, creamy white flowers with deep, orange-yellow centers. While still flowering, the shiny green leaves take on the brilliant crimson and scarlet Fall coloring, a strikingly beautiful sight. The Franklin Tree prefers full sun and a somewhat moist but well-drained acid soil near lake, pool or stream. M

3 to 4 ft.\$4.00 | 4 to 5 ft.\$6.00

LABURNUM

L. Watereri (*Golden Chain*). Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than Laburnum vulgare. M

4 to 5 ft.\$6.00 | 5 to 6 ft.\$7.50

MAGNOLIA

M. Soulangeana (*Saucer Magnolia*). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M

2 to 3 ft.\$7.50 | 4 to 5 ft.\$15.00
3 to 4 ft.10.00 | 5 to 6 ft.18.00

M. Soulangeana Lennei. An outstanding variety with very handsome, big, leathery leaves. Late blooms of deep purple, white inside. M

2 to 3 ft.\$9.00 | 3 to 4 ft.\$12.00
4 to 5 ft.\$15.00

M. liliflora nigra (*Purple Magnolia*). Similar to Lennei with huge, purple petals; heavy foliage of great beauty. M

4 to 5 ft.\$12.00 | 6 to 7 ft.\$20.00
5 to 6 ft.15.00 | 6 to 8 ft., heavy.25.00

M. stellata (*Star Magnolia*). Small, broad, rounding habit, star-shaped flowers of pure dazzling white. Hardest and finest of all. S

18 to 24 in.\$7.50 | 3 to 4 ft.\$15.00
2 to 3 ft.9.00 | 4 to 5 ft.25.00

MALUS—Flowering Crab

It is difficult to adequately describe this most delightful group of Flowering Trees—such a wealth of color, fragrance and fruits do these afford. Also, no matter what habit of growth you might want—whether upright and regular; full, spreading and mounded; or interestingly irregular—there is a Flowering Crab to please you.

M. Arnoldiana (*Arnold Crab*). Semi-double pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth. M

3 to 4 ft.\$4.50 | 5 to 6 ft.\$12.00
4 to 5 ft.7.50 | 6 to 7 ft.17.50

M. atrosanguinea (*Carminie Crab*). Single crimson flowers in great profusion. Low-headed tree, spreading in habit, with slightly twisted branches. M

3 to 4 ft.\$4.50 | 5 to 6 ft., heavy.\$12.00 | 6 to 7 ft., heavy.\$22.50

M. floribunda. A single rose pink variety bearing an abundance of fruit even when young, which is very attractive to birds; vigorous grower. M

3 to 4 ft.\$6.00 | 4 to 5 ft.\$9.00 | 5 to 6 ft.\$17.50 to \$25.00
6 to 7 ft.\$25.00 | 7 to 8 ft.\$35.00

Flowering Plum (*Prunus C. Pissardi*)

MALUS—Continued

M. floribunda atropurpurea (*Purple-leaf Crab*). Brilliant foliage of rich reddish purple. Single, deep red flowers and red fruit in clusters. M

7 to 8 ft.\$12.00 | 8 to 9 ft.\$17.50

M. adstringens Hopa. Erect, symmetrical leaves tinged purple. Flowers large, red, single; dark red fruit. The fruit of this variety is good for jelly and is most decorative of all varieties. F

6 to 7 ft.\$9.00 | 8 to 10 ft.\$20.00
7 to 8 ft.15.00 | 10 to 12 ft.25.00

M. ioensis plena (*Bechtel's Crab*). A vigorous, shapely tree with double pink flowers exactly like miniature Roses and of delightful rose-like fragrance. A very fine variety. S

3 to 4 ft.\$3.00 | 5 to 6 ft.\$8.00
4 to 5 ft.5.00 | 6 to 7 ft.12.00

M. Sargentii (*Sargent's Crab*). A dwarf, bushy hardy variety. Sparkling white flowers and an abundance of small red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S

3 to 4 ft.\$7.50 | 5 to 6 ft.\$15.00

M. Scheideckeri (*Scheidecker's Crab*). Very early, double bright pink blossoms; bears waxy yellow fruit-like Cherries; distinctly upright, slender. M

3 to 4 ft.\$4.50 | 5 to 6 ft.\$7.50 | 6 to 7 ft.\$12.00

M. spectabilis (*Chinese Crab*). A shapely tree with good, shiny foliage, and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M

2 to 3 ft.\$3.00 | 4 to 5 ft.\$5.00 | 6 to 7 ft.\$12.00

M. hupehensis (*Tea Crab*). Irregular, spreading top with zig-zag branches complete clothed with flowers. Buds red, opening to single pink flowers. Fruits dull red. Tree effect in bloom is Apple-like; in form vase-shaped. F

8 to 10 ft.\$25.00 | 10 to 12 ft.\$35.00

Malus floribunda

FLOWERING TREES—Continued

OXYDENDRUM

O. arboreum (*Sorrel Tree*). A comparatively dwarf tree bearing an abundance of white flowers in Midsummer. The foliage turns several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M

2 to 3 ft.....	\$4.50	4 to 5 ft.....	\$7.50
3 to 4 ft.....	5.00	5 to 6 ft.....	9.00
6 to 7 ft.....	\$12.00		

PRUNUS—Flowering Cherries

These are the Oriental Cherries which are so famous in Washington. They are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

P. subhirtella Beni Higan. A small, upright tree with gay, bright pink, single blooms. M

5 to 6 ft.....	\$9.00	6 to 7 ft.....	\$12.00
7 to 8 ft.....	\$17.50		

P. cistena. Deep bronzy foliage and fine single pink flowers in Spring make this of special interest. Grows to 10 ft. F

4 to 5 ft.....	\$6.00		
----------------	--------	--	--

P. Sieboldii Naden. A double, deep pink variety of upright growth. F

4 to 5 ft.....	\$6.00	5 to 6 ft.....	\$7.50
----------------	--------	----------------	--------

P. Paul Wohlert. Fragrant, semi-double deep pink. F

5 to 6 ft.....	\$7.50	7 to 8 ft.....	\$12.00
----------------	--------	----------------	---------

Flowering Cherry (Prunus Beni Higan)

WEeping CHERRIES

P. serrulata pendula (*Weeping Japanese Cherries*). A pendulous form of the well-known Flowering Cherries so admired at Washington, D. C. Double bright pink flowers in great profusion in early Spring. S

2 yr. light.....	\$6.00
3 yr., 6 ft. stems.....	10.00
4 yr., 6 ft. stems.....	12.50

FLOWERING PLUM

Prunus cerasifera Pissardii (*Purple-leaved Plum*). A lovely, small flowering tree with purple foliage and the daintiest pink blossoms. A delightful addition to the landscape. F

4 to 5 ft.....	\$3.50
5 to 6 ft.....	5.00

The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times. We reserve the right where necessary to change prices without notice and to charge for specimen plants according to their individual value.

Weeping Cherry (Prunus serrulata pendula)

SORBUS—Mountainash

S. Aucuparia (*European Mountainash*). Well-formed tree with small leaves and bearing large clusters of orange red berries. M

5 to 6 ft.....	\$3.75
6 to 8 ft.....	4.50
8 to 10 ft.....	7.50
10 to 12 ft.....	9.00
2 to 2½ in. cal.....	15.00
2½ to 3 in. cal.....	22.50

WISTERIA—Tree Form

W. sinensis, Tree Form. The loveliest sight imaginable is a Tree Wisteria in May in full bloom. Racemes of purple-blue flowers so cover the pendulous branches as to transform the head of the tree into a cloud of delicate coloring. A charming addition to every garden but a necessity in the formal one. It grows in beauty as it ages. Wisterias prefer sunny locations and severe pruning enhances blooming. To assure your having blooms, we offer only grafted stock. M

5 to 6 ft.....	\$12.00
6 to 8 ft.....	15.00

OUR FLOWERING TREES WILL BE AT THE PEAK OF BLOOM IN MAY. PLAN TO VISIT THE NURSERIES

Wisteria, Tree-form

A Portion of a Block of Taxus—A Rosedale Specialty

EVERGREENS (Conifers)

Evergreens present you with a most adaptable group of plants, suitable for a variety of uses, and we mention a few of these uses below to help you plan your planting.

We take particular pride in the quality of our Evergreens—in their vigor, shape and expert balling and burlapping (B&B). These factors make for safe, easy transplanting and quicker re-establishment in a new location. Frequent transplanting here in the nursery develops strong root systems and is one of the behind-the-scenes operations that makes our evergreens superior.

Always remember that careful and wise pruning will keep your plants and trees pretty much as you want them. An excellent example is the Hemlocks—one of the most popular of all trees for Evergreen hedges for maintaining fullness and controlled height—yet if allowed to grow unpruned, it will in time, reach a height of 70 to 100 feet.

Keteleer Juniper (*Juniperus chinensis* Keteleeri)

PLANTING: As a general guide to planting B&B plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set the top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

To aid you in selecting material most suitable to your needs, we make the following list of suggestions—although some of our plant materials are omitted from the classifications for the sake of brevity.

Pfitzer's Juniper (*Juniperus Pfitzeriana*)

JUNIPERUS—Juniper

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

- J. chinensis columnaris.** Fast growing, slender tapering spire. Best substitute for our native Cedar. Hardy, light green, effective Evergreen. F
5 to 6 ft.\$9.00 | 6 to 7 ft.\$15.00
- J. chinensis Keteleeri** (*Keteleer Juniper*). Named for a landscape architect in Paris. This comparatively new variety is never attacked by aphid or blight. It grows in pyramidal form and is of very pleasing, light green color which it maintains during Winter. M
2½ to 3 ft.\$4.50 | 3 to 3½ ft.\$6.00 | 3½ to 4 ft.\$7.50
4 to 5 ft.\$10.00 | 5 to 6 ft.\$15.00
- J. chinensis Pfizeriana** (*Pfizer's Spreading Juniper*). A handsome spreading form, slightly larger than most other spreading types. It has gray-green, plume-like foliage and is extremely useful as a filler in foundation or border planting. Hardy and indifferent to drought. M
18 to 24 in.\$4.50 | 2 to 2½ ft.\$6.00 | 2½ to 3 ft.\$7.50 | 3 to 3½ ft.\$10.00
3½ to 4 ft.\$12.00 | 4 to 5 ft.\$15.00 | 5 to 6 ft.\$20.00
- J. chinensis pyramidalis** (*Green Juniper*). Slow-growing and of upright, columnar habit; the restful gray-green foliage makes it additionally useful as a color accent. S
2½ to 3 ft.\$7.50 | 3 to 4 ft.\$9.00
- J. chinensis Sargentii.** A low, trailing form with deep green foliage. Best Juniper for rock gardens. S
12 to 15 in.\$4.00 | 15 to 18 in.\$5.00 | 2 to 2½ ft.\$7.50
- J. communis hispanica.** A narrow, columnar, blue green type. Attains about 7 to 8 ft. in height and is a great favorite for accent points in the garden. S
3½ to 4 ft.\$7.50 | 4 to 4½ ft.\$9.00
- J. horizontalis plumosa.** A dwarf, low-spreading form with plummy foliage fanning out from the center. This Juniper offers the most interesting color changes of all the Junipers—green in the Spring; gray-green in the Summer changing to myriads of heather tones in the Winter. S
15 to 18 in.\$3.50 | 18 to 24 in.\$4.50 | 2 to 2½ ft.\$6.00
- J. horizontalis Bar Harbor.** Very desirable creeping form with blue-green foliage. Spreads moderately, always remaining low. Foliage takes on heather color in Fall. S
15 to 18 in.\$5.00
- J. virginiana Burkii.** A distinct, silver Cedar worthy of more attention. Uniform, upright growth of soft foliage. M
4 to 5 ft.\$9.00 | 5 to 6 ft.\$12.00
- J. virginiana Canaertii.** An aristocrat of Cedars. Upright, blackest green tree, bearing quantities of the most ornamental blue berries. M
4 to 5 ft.\$9.00 | 5 to 6 ft.\$12.00

PICEA—Spruce

No group of Evergreens is more widely used in landscape work than the Spruces and many of them are among the most showy and rapid growing of their class. Spruces will grow in almost any kind of moderately moist soil and are easily transplanted.

Recommended for lawn specimens, screen, or border.

- P. Abies** (*Norway Spruce*). Rapid growing Christmas tree type attaining great size. Useful for wind-break or individual specimen. F
3 to 4 ft.\$5.50 | 4 to 5 ft.\$8.00 | 5 to 6 ft.\$12.00 | 6 to 7 ft.\$16.00
- P. Omorika** (*Serbian Spruce*). Dense pyramid, attaining great size slowly. Needles are dark green above and silvery underneath and branches sweep out in arcs. Hardy and reliable. M
4 to 5 ft.\$16.00 | 5 to 6 ft.\$20.00
- P. pungens glauca** (*Koster Blue Spruce*). This is the bluest of all—regular and symmetrical in growth with somewhat pendulous branches. For best effect this should be used as a specimen planting or as an accent. M
2 to 3 ft.\$10.00

PINUS—Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

- P. Cembra** (*Swiss Stone Pine*). Hardy dark green foliage. Tree symmetrical, slow growing and compact. A very handsome lawn specimen narrowly pyramidal. S
3 to 4 ft.\$12.00 | 4 to 5 ft.\$18.00
- P. Mugho** (*Dwarf Mugho Pine*). Low mounded Pine with short, stubby needles. Slow in growth, attaining greater spread than height. S
15 to 18 in.\$4.50 | 18 to 24 in.\$6.00 | 2 to 2½ ft.\$8.00 | 2½ to 3 ft.\$12.00

White Pines (*Pinus Strobus*) Growing at Rosedale

Norway Spruce (*Picea Abies*)

EVERGREENS (Conifers)—Continued

PINUS—Continued

- Pinus nigra** (*Austrian or Black Pine*). This flourishes near the seacoast and on high, bleak hills or in cities where smoke and dust would prohibit the use of many other Evergreens. F 2 to 3 ft., very heavy.....\$8.00 | 3 to 4 ft., very heavy.....\$10.00
- P. parviflora glauca** (*Oriental White Pine*). A hardy tree of irregular growth with bluish green needles in tufts at the ends of branches. Very picturesque. M 5 to 6 ft.....\$12.00 | 6 to 7 ft.....\$15.00 | 7 to 8 ft.....\$18.00
- P. Peuce** (*Macedonian Pine*). A very ornamental hardy Pine of regular, dense habit and slow growth; needles rich silvery green about 3 in. long. Resembles Swiss Stone Pine. M 5 to 6 ft.....\$12.00 | 6 to 7 ft.....\$16.00 | 7 to 8 ft.....\$20.00
- P. sylvestris** (*Scotch Pine*). A Pine of picturesque, windswept beauty and dense, blue-green foliage. Thrives in windy, dry locations. F 5 to 6 ft.....\$12.00 | 6 to 7 ft.....\$15.00 | 7 to 8 ft.....\$18.00
- P. Strobus** (*White or Weymouth Pine*). This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily. F 2 to 3 ft.....\$3.75 | 5 to 6 ft.....\$12.00 | 9 to 10 ft.....\$35.00
3 to 4 ft.....5.00 | 6 to 7 ft.....15.00 | 10 to 12 ft.....50.00
4 to 5 ft.....8.50 | 7 to 8 ft.....18.00 | 12 to 14 ft.....60.00
8 to 9 ft.....22.50

PSEUDOTSUGA

- P. taxifolia** (*Douglas Fir*). This handsome tree has gray-green foliage, is very hardy and extremely ornamental at all stages of growth. Its hardiness and beauty would be difficult to overrate. Thrives in Canada and will endure both drought and cold. Some specimens are rich deep green, others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and believe we have superior stock to offer. F 2 to 3 ft.....\$4.75 | 4 to 5 ft.....\$9.00 | 6 to 7 ft.....\$18.00
3 to 4 ft.....7.50 | 5 to 6 ft.....12.00 | 7 to 8 ft.....20.00

THUJA—Arbovitae

Ornamental evergreen trees of narrow pyramidal habit. They are favorites for formal gardens because of their regular, symmetrical habit. Adapted for hedges and windbreaks. Thrive best in a moist, loamy soil.

- T. occidentalis** (*American Arborvitae*). Beautiful native tree, commonly known as White Cedar. Especially useful for hedges and screens. M 3 to 4 ft.\$5.00 | 4 to 5 ft.\$6.50 | 5 to 6 ft.\$9.00 | 6 to 7 ft.\$12.00 | 7 to 8 ft.\$16.00
- T. occidentalis Boothii** (*Booth Globe Arborvitae*). Dense, globe-shaped variety which maintains its shape without shearing; foliage is a pleasing seagreen in Summer; in Winter, bronze; perfectly hardy; grows about 3 ft. high. S 12 to 15 in.....\$1.75 | 15 to 18 in.....\$2.50 | 18 to 24 in.....\$3.50
- T. occidentalis nigra** (*Dark American Arborvitae*). An upright variety maintains a dark, rich green. M 3 to 4 ft.\$4.50 | 4 to 5 ft.\$6.50 | 5 to 6 ft.\$9.00 | 6 to 7 ft.\$12.00 | 7 to 8 ft.\$16.00
- T. occidentalis pyramidalis** (*Pyramidal Arborvitae*). The deep green color and upright pyramidal form of this species renders it conspicuous in contrast with other evergreens. It is very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge. M 3 to 4 ft.....\$5.00 | 5 to 6 ft.....\$9.00 | 7 to 8 ft.....\$14.00
4 to 5 ft.....6.00 | 6 to 7 ft.....12.00 | 8 to 9 ft.....16.00

Luxuriant Hemlocks Growing at Rosedale

- Thuja occidentalis robusta** (*Ware or Siberian Arborvitae*). A sturdy variety of broad, pyramidal form upon maturity. Gray-green foliage. Dense, rugged grower of slow habit. M 3 to 4 ft.....\$7.50 | 4 to 5 ft.....\$9.00
- T. occidentalis Rosenthalii** (*Rosenthal Arborvitae*). A rugged, columnar tree of slower growing habit than other Arborvitae. Very hardy with especially fine foliage during the Winter. M 4 to 5 ft.....\$10.00 | 5 to 6 ft.....\$12.00
- T. occidentalis spiralis**. Compact tree with upright branches and short, close set branchlets clothed with beautiful, dark foliage. M 4 to 5 ft.....\$7.50 | 5 to 6 ft.....\$9.00
- T. plicata** (*Giant Arborvitae*). Although of narrow, pyramidal form, this tree attains tremendous height. The effect of glossy, bright green leaves against the cinnamon-red bark is of interesting beauty which becomes accentuated with age. M 4 to 5 ft.....\$7.50
- T. orientalis Sieboldii** (*Golden Biota*). A neat, compact, dwarf plant of round, or egg shape with yellow to bronze foliage. Always retains its neat, compact form without training. S 15 to 18 in.....\$3.50 | 18 to 24 in.....\$5.00
- T. orientalis elegantissima** (*Biota*). Slender, columnar form with bright, golden-tipped foliage in the Spring, green-gold in Summer. A strong accent during Winter, with dark golden bronze coloring. Hardest of Chinese Arborvitae. M 4 to 5 ft.....\$7.50

TSUGA—Hemlock

Hemlocks can be used in many different ways; as lawn specimens they attain great size and beauty; by shearing they may be used in foundation planting and kept from overgrowing for years and years; for border or screen they form a most naturalistic background. Hemlocks thrive in shade or full sun and are practically immune to insects and disease.

- T. canadensis** (*Canadian Hemlock*). A handsome, ornamental tree growing 70-100 ft. high; dark green foliage; hardy as far north as Canada. F 15 to 18 in.\$2.25 each, \$20.00 per 10 | 4 to 5 ft.....\$10.00 | 8 to 9 ft.....\$35.00
18 to 24 in. 3.50 each, 30.00 per 10 | 5 to 6 ft.....15.00 | 9 to 10 ft.....50.00
2 to 3 ft.....5.00 | 6 to 7 ft.....18.00 | 10 to 12 ft.....75.00
3 to 4 ft.....7.50 | 7 to 8 ft.....25.00 | 12 to 14 ft.....100.00

Larger specimens priced upon selection

- T. canadensis McLayi**. A unique, dwarf Hemlock of unusual form. Entirely hardy and suitable for foundation planting because of slow growth and picturesque shape. S 5 to 6 ft.....\$20.00
- T. canadensis pendula** (*Sargent's Weeping Hemlock*). Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent. S 3 to 3½ ft.....\$20.00 | 3½ to 4 ft.....\$25.00 | 4 to 4½ ft.....\$35.00
- T. caroliniana** (*Southern Hemlock*). Native of the mountains of the Southern States and perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock. M 3 to 4 ft.....\$7.50 | 4 to 5 ft.....\$12.00 | 5 to 6 ft.....\$17.50
- T. diversifolia** (*Japanese Hemlock*). Very dwarf, with crisp, dense foliage on reddish branches. Slowest growing of all our Hemlocks and will thrive in sun or partial shade. S 3 to 3½ ft.....\$12.00 | 3½ to 4 ft.....\$15.00 | 4 to 4½ ft.....\$18.00

Compact Douglas Fir Growing at Rosedale

EVERGREENS (Conifers)—Continued

TAXUS • Yew

The rich, dark green color, hardiness, freedom from ills and slow, rugged development make these the most popular of all needled Evergreens. They thrive best in a moderately sandy loam but will endure adverse soil conditions and shade.

The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping, to mention just a few—make Yews suitable for almost any landscape requirements. Among other uses they make the finest of all hedges. Yews stand heavy pruning well.

Our selection of Yews is very extensive, of finest quality. We offer these at new low prices.

T. baccata repandens (*Spreading English Yew*). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. M
12 to 15 in. \$3.75 | 18 to 24 in. \$6.00
15 to 18 in. 5.00 | 2 to 2½ ft. 7.50
2½ to 3 ft. \$10.00

T. cuspidata (*Spreading Japanese Yew*). Dense, spreading habit. Deep green foliage. Especially useful near the house. Very hardy. M
15 to 18 in. \$3.95 | 3½ to 4 ft. \$20.00
18 to 24 in. 6.50 | 4 to 4½ ft. 25.00
2 to 2½ ft. 9.00 | 4½ to 5 ft. 30.00
2½ to 3 ft. 12.00 | 5 to 5½ ft. 35.00
3 to 3½ ft. 15.00 | 5½ to 6 ft. 45.00

T. cuspidata (*Capitate or Tree Form; Upright Japanese Yew*). Upright tree form of *Cuspidata*, very desirable for foundation planting. Best of evergreen hedges. M
15 to 18 in. \$4.75 | 3½ to 4 ft. \$18.00
18 to 24 in. 6.00 | 4 to 4½ ft. 22.50
2 to 2½ ft. 7.50 | 4½ to 5 ft. 27.50
2½ to 3 ft. 9.00 | 5 to 5½ ft. 35.00
3 to 3½ ft. 15.00 | 5½ to 6 ft. 45.00

A few large specimens priced on selection

T. cuspidata columnaris. A narrow, pyramidal form requiring a minimum of shearing. Dark green and very luxuriant. Fine for accent. M
3 to 3½ ft. \$15.00 | 4 to 4½ ft. \$22.50
3½ to 4 ft. 18.00 | 4½ to 5 ft. 25.00

T. cuspidata, Moon's Columnar (*Moon's Columnar Yew*). A generally upright variety usually having a spread very nearly equal to height. Its foliage is heavy and of deepest dark green. Hardy and slow in growth; highly recommended. S
2 to 2½ ft. \$10.00 | 2½ to 3 ft. \$15.00

T. cuspidata nana (*Dwarf Japanese Yew*). Dwarf, compact, very hardy; low spreading form. S
12 to 15 in. \$3.75 | 2½ to 3 ft. \$20.00
15 to 18 in. 5.00 | 3 to 3½ ft. 30.00
18 to 24 in. 8.00 | 3½ to 4 ft. 40.00
2 to 2½ ft. 12.00 | 4 to 4½ ft. 50.00
4½ to 5 ft. \$75.00

A few larger sizes priced on selection

Taxus Hatfield Spreader and **Taxus densiformis** are developments of *Cuspidata* and similar in shape. Same prices apply to these varieties. Come in and see them. M

T. media Brownii. This rounded, full-centered type of compact Yew is our very best type for hedges where medium height and considerable fullness is desired. Our stock this year is especially fine and we offer this as our best buy in *Taxus*. M
15 to 18 in. \$4.75
18 to 24 in. 5.50
2 to 2½ ft. 7.50
2½ to 3 ft. 10.00
3 to 3½ ft. 15.00

Taxus cuspidata (Capitate Form)

Taxus Hicksii

Taxus media Hatfieldii (*Hatfield Upright Yew*). Finest upright Yew. Holds its form almost without trimming. M
15 to 18 in. \$4.50
18 to 24 in. 5.50
2 to 2½ ft. 7.50
2½ to 3 ft. 10.00
3 to 3½ ft. 15.00
3½ to 4 ft. 17.50

Taxus Hatfieldii

Taxus media Hicksii (*Hicks Yew*). Interesting form of this most useful family. Exceptionally dark green needles. Grows in an upright, columnar shape. Bears red berries profusely. M
2 to 2½ ft. \$7.50
2½ to 3 ft. 10.00
3 to 3½ ft. 12.50
3½ to 4 ft. 15.00
4 to 4½ ft. 17.50
4½ to 5 ft. 20.00
5 to 5½ ft. 25.00
Broad, heavy specimens, 4½ to 5½ ft. \$35.00 to 40.00

T. media Vermeulen. A dense-growing, upright, mounded type of Yew. Slightly irregular in character it makes an interesting addition to the landscape planting, and its extremely slow growth makes it more valuable than *Boxwood* in this climate for entrance planting. S
2½ to 3 ft. \$15.00
3 to 3½ ft. 17.50

Taxus baccata repandens

Shade Trees for Comfort and Beauty—Cool Shade in Summer, Sunny Warmth in Winter

SHADE TREES

To have healthy, sturdy Shade Trees, it is necessary for the trees to grow in soil suitable to their needs, to be transplanted frequently to improve root systems and to be pruned in order to encourage shapely growth. Here at Rosedale we do these things systematically so that you will receive fine, sturdy stock. In addition, we are particularly careful to plant our trees far enough apart in wide-spaced rows to permit lateral as well as upright growth. We grow only those varieties which will thrive in this climate.

As an aid to your planning, we again make a few suggestions as to classifying these trees according to characteristics which when known might be helpful.

FAST GROWING

Acer platanoides.....Norway Maple
Acer saccharum.....Sugar Maple
Platanus occidentalis.....American Plane
Salix Varieties.....Willow
Gleditsia inermis.....Thornless Honeylocust

FOR HEAVY SHADE

Acer platanoides.....Norway Maple
Acer saccharum.....Sugar Maple
Fagus grandifolia.....American Beech
Fagus sylvatica.....European Beech
Platanus occidentalis.....American Plane
Quercus borealis maxima.....Red Oak

FOR LIGHT SHADE

Betula, Varieties of.....Birch
Gleditsia inermis.....Thornless Honeylocust
Salix, Varieties of.....Willow

FOR BRILLIANT FALL COLORING

Acer saccharum (*Sugar Maple*)...Red and yellow
Liquidambar (*Sweetgum*).....Red and yellow
Nyssa sylvatica (*Sourgum*).....Red
Quercus palustris (*Pin Oak*).....Red and yellow
Quercus borealis maxima (*Red Oak*).....Red

B&B means "Balled and Burlapped" where this is not indicated, trees will be dug bare root. If it is desired that they be dug B&B, an additional charge will be made.

PLANTING BARE ROOT MATERIAL

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (*Shows on trunk or main stem.*)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see directions on page 6.

ACER—Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

A. palmatum atropurpureum (*Redleaved Japanese Maple*). A comparatively dwarf Maple, slow in growth and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well shaped. All B&B. S
 18 to 24 in.....\$8.50 | 2½ to 3 ft.....\$12.00 | 3½ to 4 ft.....\$20.00
 2 to 2½ ft.....10.00 | 3 to 3½ ft..... 15.00 | 4 to 5 ft..... 25.00

A. palmatum dissectum (*Cutleaf Japanese Maple*). Very dwarf form with finely cut purple red leaves. Very graceful and a real treasure when fully developed. All B&B. S
 2 to 2½ ft.....\$10.00 | 4 ft. specimens.....\$40.00

A. platanoides (*Norway Maple*). Foremost of the Maples because of its regular outline, widespreading branches and deep green foliage which is retained after the first heavy frosts. Becomes a good shade tree quickly. F
 1¾ to 2 in. cal.....\$9.00 | 3 to 3½ in. cal.....\$22.50
 2 to 2½ in. cal..... 15.00 | 3½ to 4 in. cal..... 35.00
 2½ to 3 in. cal..... 18.00 | 4 to 4½ in. cal. B&B..... 55.00

Larger sizes priced on application

Norway Maples in the Nursery

SHADE TREES—Continued

ACER—Continued

- A. platanoides Schwedleri nigra** (Norway Maple, Crimson King, Patent No. 735). Crimson King is a beautiful form of Schwedler Maple originated in Europe. It is brilliant crimson all through the Summer months. Crimson King has been under observation in America for ten years and has kept its brilliant coloring all through the season. F
- | | |
|----------------|---------|
| 6 to 8 ft..... | \$10.00 |
|----------------|---------|
- A. saccharum** (Sugar Maple). A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall. All B&B F
- | | |
|----------------------|---------|
| 1½ to 2 in. cal..... | \$12.00 |
| 2 to 2½ in. cal..... | 17.50 |
| 2½ to 3 in. cal..... | 22.50 |
| 3 to 3½ in. cal..... | 30.00 |
| 3½ to 4 in. cal..... | 45.00 |

BETULA—Birch

- B. alba** (European White Birch). Very graceful habit and creamy white bark even in the young trees. All B&B. M
- | | | | |
|---------------------|---------|-----------------|---------|
| 7 to 8 ft.. | \$10.00 | 2 to 3 in. cal. | \$25.00 |
| 8 to 10 ft.. | 15.00 | 3 to 4 in. cal. | 45.00 |
| 4 to 5 in. cal..... | \$75.00 | | |
- B. populifolia** (Gray or Silver Birch). Generally in clumps of two or more white trunks rising gracefully from the ground. The small leaves quiver at the slightest breeze. All B&B. M
- | | | | |
|------------------|---------|--------------|---------|
| 5 to 7 ft.... | \$7.50 | 9 to 10 ft. | \$15.00 |
| 7 to 9 ft.... | 12.00 | 10 to 12 ft. | 22.50 |
| 12 to 14 ft..... | \$35.00 | | |
- Larger plants priced on selection

FAGUS—Beech

- F. grandifolia** (American Beech). Grows slowly, but a handsome native, whose clean gray-barked trunks are familiar in light woods. Prefers well-drained soil and Spring planting. All B&B. M
- | | | | |
|---------------|---------|---------------|---------|
| 10 to 12 ft.. | \$50.00 | 12 to 14 ft.. | \$75.00 |
|---------------|---------|---------------|---------|
- F. sylvatica** (European Beech). For screen or hedge, this Beech is ideal among deciduous trees. It gives nearly as much screen in Winter as in Summer, owing to the fact that the dead leaves persist in Winter. As it bears the shears well, it may be kept within bounds for hedge purposes and grows as dense as any hedge. All B&B. M
- | | | | |
|--------------|---------|---------------|---------|
| 6 to 8 ft.. | \$25.00 | 10 to 12 ft.. | \$50.00 |
| 8 to 10 ft.. | 35.00 | 12 to 14 ft.. | 75.00 |
- F. sylvatica atropunicea** (Rivers Purple Beech). This tree is similar to the European Beech except for its beautiful purple foliage Handsome and dignified. All B&B. S
- | | | | |
|--------------|---------|--------------|----------|
| 8 to 10 ft.. | \$35.00 | 12 to 14 ft. | \$100.00 |
|--------------|---------|--------------|----------|

GLEDITSIA Honeylocust

- G. triacanthos inermis** (Thornless Honeylocust). This is a truly lovely tree. Its towering, spreading canopy of lacelike foliage is the epitome of light and airy grace. Freedom from insect pests is only one of its outstanding characteristics. Not entirely free from thorns but many less than the older form *Triacanthos*. Hardy and long lived. This tree is the answer to problem of planting something different in a shade tree. F
- | | |
|------------------------------------|---------|
| 10 to 12 ft., 1½ to 2 in. cal..... | \$10.00 |
| 2 to 2½ in. cal..... | 15.00 |
| 2½ to 3 in. cal..... | 25.00 |
| 3 to 3½ in. cal..... | 35.00 |
| 3½ to 4 in. cal..... | 50.00 |

MORAIN LOCUST

(Plant Pat. No. 836)

A thornless, seedless form of Honeylocust which is a most desirable addition to our shade tree varieties. Morain Locust grows rapidly, throws a light, airy shade and rapidly attains a vase shape. We highly recommend it. F

5 to 6 ft.....	\$6.00	6 to 8 ft.....	\$10.00
----------------	--------	----------------	---------

LIQUIDAMBAR—Sweet Gum

- L. styraciflua** (Sweet Gum). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. Star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. All B&B. S
- | | | | |
|--------------------|---------|-------------------|---------|
| 1½ to 2 in. cal... | \$15.00 | 2½ to 3 in. cal.. | \$27.50 |
| 2 to 2½ in. cal... | 20.00 | 3 to 3½ in. cal.. | 35.00 |

NYSSA—Sour Gum

- N. sylvatica** (Sour Gum or Tupelo). A small spreading tree which likes low ground and has the most brilliant Fall coloring of all shade trees. S
- | | |
|----------------|--------|
| 4 to 5 ft..... | \$7.50 |
|----------------|--------|

European Beech

QUERCUS—Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their reputation as slow growers is not warranted, for, when once established, they will make a yearly growth equal to that of almost any other species.

- Q. palustris** (Pin Oak). A superb and distinct tree. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. Jack Frost has never shown greater skill than in the coloring he produces in Pin and Scarlet Oaks. M
- | | |
|----------------------------------|---------|
| 1 to 1½ in. cal., 6 to 8 ft..... | \$7.50 |
| 1½ to 2 in. cal.. | \$12.00 |
| 2½ to 3 in. cal., B&B | 27.50 |
| 3 to 3½ in. cal..... | 35.00 |
- Q. borealis maxima** (Red Oak). A fine, all-round tree with wide-spreading branches. Colorful Fall foliage remains on all Winter. M
- | | | | |
|------------------|---------|----------------------|---------|
| 2 to 2½ in. cal. | \$15.00 | 2½ to 3 in. cal.B&B. | \$27.50 |
|------------------|---------|----------------------|---------|
- Large specimens priced on selection

SALIX—Willow

- S. babylonica** (Weeping Willow). Long, stringy branches droop vertically to the ground and with the narrow, light green leaves create a soft, velvety texture; grows rapidly especially when close to water. F
- | | |
|-------------------|-----------------------------|
| 5 to 6 ft..... | \$2.50 each, \$22.50 per 10 |
| 6 to 8 ft..... | 3.50 each, 30.00 per 10 |
| 8 to 10 ft.... | \$5.00 |
| 10 to 12 ft | \$7.50 |
- S. babylonica aurea** (Golden Twig Weeping Willow). F
- | | |
|-----------------|-----------------------------|
| 5 to 6 ft..... | \$2.50 each, \$22.50 per 10 |
| 6 to 8 ft..... | \$3.50 |
| 8 to 10 ft..... | \$5.00 |
- S. sepulcralis** (Salmon Weeping Willow). Similar to *Babylonica*, but less pendulous—ascending branches and pendulous branchlets; sturdier than *Babylonica*. F
- | | |
|----------------|--------|
| 6 to 8 ft..... | \$3.50 |
|----------------|--------|

TILIA—Linden

- T. tomentosa** (Silver-leaved Linden). This is our best form of Linden, having clean, silvery foliage not readily affected by aphids or beetles; very desirable tree. M
- | | | | |
|---------------------------|---------|-------------------|---------|
| 2 to 2½ in. cal... | \$20.00 | 2½ to 3 in. cal.. | \$25.00 |
| 3 to 3½ in. cal., B&B.... | \$40.00 | | |

Weeping Willow (*Salix babylonica*)

PLATANUS—Plane

- P. occidentalis** (American Plane). This grand native American tree is sometimes called Buttonball or Sycamore. It attains great size and spread with open-branching and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it highly for a rapid growing shade tree in well drained soil. F
- | | | | |
|----------------------|---------|------------------|---------|
| 1½ to 2 in. cal... | \$10.00 | 2 to 2½ in. cal. | \$15.00 |
| 2½ to 3 in. cal..... | \$20.00 | | |

Rosedale method of burlaping and lacing insures safe transplanting.

Fibrous roots result from frequent transplanting and root-pruning.

Knowledge, experience and skill make for careful handling and delivering Rosedale big trees. Big trees provide immediate shade and mature effects.

BROADLEAF EVERGREENS

EVERGREEN SHRUBS

This group of "double-duty" plants—having both evergreen qualities and bearing the most beautiful flowers—offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Increasing numbers of these Evergreen Shrubs are used each year to provide colorful as well as evergreen effects in the well-planned landscape planting. This applies not only to the flowers borne but also to brilliant color changes in the foliage as occurs with *Leucothoe* and many others in the Fall.

We have an unusually fine selection of these native American plants and to assist you in a general way we make the following suggestions as to their usage. However, we cannot stress too strongly that these are merely *suggestions* and not their sole uses—nor are all materials usable in these ways included in this short list.

FOR FULL SHADE

Rhododendron maximum Rosebay
Kalmia latifolia Mountain Laurel
Ilex glabra Inkberry
Leucothoe catesbaei Drooping Leucothoe

FOR PARTIAL SHADE:

Azaleas Varieties
Abelia grandiflora	Glossy Abelia
Rhododendron catawbiense	

FOR FULL SUN:

Cotoneaster—Varieties	Ilex opaca—The "Christmas" Holly
Ilex crenata convexa	Daphne cneorum

SPREADING VARIETIES (Low growing and growing as much or more horizontally as vertically):

Abelia grandiflora	Cotoneaster horizontalis
Azalea hinodegiri	Daphne cneorum
Azalea kurume, Snow	Ilex crenata convexa
Cotoneaster apiculata	Pieris floribunda

HEDGES:

Berberis julianae	Ilex crenata convexa	Ilex crenata rotundifolia
Ilex crenata	Pieris japonica	

As a general guide to planting these balled and burlapped plants we suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

Our analysis of sales records shows that the greatest gain in popularity of plant materials has been in the use of Broadleaved Evergreens. These Evergreen Shrubs are in increasing demand for beautifying the small as well as the large home grounds. If you want a modern planting, don't overlook the possibilities of these Flowering Evergreens.

EVERGREEN SHRUBS—Continued

ABELIA

Abelia grandiflora (*Glossy Abelia*). A splendid half evergreen shrub bearing dainty, bell-shaped pink flowers from July until frost. The glossy foliage will persist all Winter in a protected spot. M
18 to 24 in.\$2.50 | 2 to 3 ft.\$3.00 | 3 to 4 ft.\$4.00

AZALEAS*

*L. H. Bailey in his "Manual of Cultivated Plants," 1949, lists all the Azaleas as "Rhododendron." Because of usage we shall continue to list as Azaleas in order to distinguish from the larger-leaved Rhododendrons.

Azalea amoena (*Evergreen*). Small, boxlike leaves on a neat, compact plant of rounded form. Leaves warm bronze hue in Winter. Covered with rosy purple flowers in Spring. Very hardy. S Large Specimens Only:
4½ to 5 ft. spread.\$35.00 each | 5 to 6 ft. spread.\$45.00 each

Azalea hinodegiri (*Evergreen*). Probably the best of the Evergreen Azaleas for color, foliage and form. A low, compact plant with handsome, waxy foliage which turns bronze in Winter. The flowers are clear fine red, borne in great profusion in May. Splendid for facing Laurel and Rhododendron as mass planting. This stock is thick and compact, and loaded with flower buds. May need some Winter protection in exposed locations or north of the nurseries. S

8 to 10 in.\$1.75	12 to 15 in.\$4.00
10 to 12 in.2.50	15 to 18 in.5.00
18 to 20 in.\$6.00	

Low-growing, Colorful Azaleas, in Foliage All Year, Are Ideal for Foundation Plantings

Azalea indica alba (*Half Evergreen*). Also called Snow Azalea. A fine combination with Hinodegiri, as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white. S
12 to 15 in.\$3.75 | 2 to 2½ ft.\$10.00
15 to 18 in.4.75 | 2½ to 3 ft.12.00
18 to 24 in.6.00 | 3 to 3½ ft.15.00

Azalea kaempferi (*Torch Azalea*). Half Evergreen. Not completely evergreen, but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon pink in varying shades. M
12 to 15 in.\$4.00 | 18 to 24 in.\$7.50
15 to 18 in.5.00 | 2 to 2½ ft.9.00

Azalea kurume, Bridesmaid. The glowing salmon-pink flowers are produced in large clusters. Small, glossy green foliage. M
18 to 24 in.\$7.50

Azalea kurume, Coral Bells. Evergreen. A most free-flowering Azalea with delightful coral-pink flowers, shading deeper in center. May-blooming. This variety may need some Winter covering in certain locations. M
18 to 24 in.\$7.50

Azalea kurume, Firefly (*Evergreen*). A full, compact grower bearing large, crimson-red flowers. Hardy in this area. M
18 to 24 in.\$7.50

Azalea kurume, Pink Pearl. A beautiful shade of deep pink. Profuse flowering habit. Reasonably hardy. M
18 to 24 in.\$7.50

Azalea calendulacea

Azalea kurume, Sherwoodii. An orchid shade of delightful color and a fine grower. Very hardy. M
12 to 15 in.\$4.00

Azalea kurume, Snow (*Evergreen*). Purest white, glistening flowers are borne profusely in clusters. Handsome, glossy green foliage. An excellent variety for accenting your other plantings, whether used singly or in groups. Low growing. F
12 to 15 in.\$4.00

Azalea poukhanense (*Half Evergreen*). A broad plant of finest form with delicate lavender buds opening to extremely large, delightful pink blooms; sweetly scented. Growth is modest and it is positively hardy, almost never losing a flower bud. We cannot recommend Azalea poukhanense too highly. Our stock is large and well grown. M
18 to 24 in.\$5.00 | 2 to 2½ ft.\$6.00 | 4 to 5 ft.\$25.00

DECIDUOUS AZALEAS

For convenience we list here other varieties of Azaleas which are not evergreen but which are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendrons with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms late usually mid-June, and the blooms have a delightful fragrance. A most desirable variety for mass plantings of native material. M
15 to 18 in.\$2.75 | 2 to 2½ ft.\$5.00 | 3 to 4 ft. heavy. \$12.00
18 to 24 in.4.25 | 2½ to 3 ft.7.50 | 4 to 5 ft.17.50

Azalea hinodegiri

Berries of Cotoneaster

BERBERIS

- B. Julianae** (Wintergreen Barberry). Evergreen. Yellow flowers and purple fruit. Good ornamental for border, foundation or hedge. M
15 to 18 in. \$3.50 | 2 to 2½ ft. \$6.00
18 to 24 in. 4.50 | 2½ to 3 ft. 7.50
2½ to 3 ft. \$10.00
- B. verruculosa**. Dwarf evergreen Barberry with colorful glossy foliage. Very spiny and attractive all year. S
10 to 12 in. \$2.75 | 15 to 18 in. \$6.00
12 to 15 in. 4.00 | 18 to 24 in. 7.50
2 to 2½ ft. \$10.00

DAPHNE

- D. Cneorum** (Rose Daphne). Rose Daphne is a dainty little bush 1 to 2 ft. high with gray green foliage, each shoot tipped with clusters of clear rose pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil. Must have full sun and loose soil which never becomes caked. S
8 to 10 in. \$1.75 | 12 to 15 in. \$2.50
15 to 18 in. \$3.50

ILEX—The Hollies

There is something startling about the sight of a full-grown Holly tree aglow with red berries. Our imaginations are stirred by this familiar species not only because of its association with Christmas spirit and cheer, but by its crisp, dominant, year-round personality. Only one of this group looks anything like the tree Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

- I. crenata**. A rapid growing, dense evergreen bush with deep green, boxwoodlike foliage. A permanent plant of real character. F
18 to 24 in. \$6.00 | 2 to 2½ ft. \$7.50 | 2½ to 3 ft. \$9.00
3 to 3½ ft. \$15.00 | 3½ to 4 ft. \$20.00
- I. crenata convexa** (Boxleaf Holly). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M
15 to 18 in. \$4.75 | 2 to 2½ ft. \$7.50
18 to 24 in. 6.00 | 2½ to 3 ft. 9.00
- I. crenata rotundifolia** (Roundleaf Holly). Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety which is real hardy in Westchester. M
15 to 18 in. \$4.75 | 18 to 24 in. \$6.00 | 2 to 2½ ft. \$7.50
2½ to 3 ft. \$9.00 | 3 to 3½ ft. 15.00
- I. glabra** (Inkberry). A bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall; useful for shady and moist locations. M
15 to 18 in. \$2.50 | 18 to 24 in. \$3.50 | 2 to 2½ ft. \$4.75
- I. opaca** (American Holly). The well known Christmas Holly, with red berries. Grows to a large tree but may be shared to a dense bush. Both male and female plants should be planted. We believe we have one of finest collections of American Holly available and all plants have been trained and transplanted frequently. M
2 to 3 ft. \$6.50 | 6 to 7 ft. \$25.00 to \$35.00
3 to 4 ft. 9.50 | 7 to 8 ft. 35.00 to 45.00
5 to 6 ft. 18.00 | 8 to 9 ft. 45.00 to 60.00

ILEX convexa, Green Island (Plant Pat. No. 817). An improved boxleaf Holly with broader foliage of deepest glossy green; hardy and dependable. Growth is moderate and form is low mounded. An ideal evergreen for modern planting. M
12 to 15 in. \$3.00 | 18 to 24 in. \$5.25

DECIDUOUS AZALEAS—Continued

- Azalea calendulacea** (Flame Azalea). A brilliant orange and yellow flowering native shrub. Tall but slow growing, free flowering. F
15 to 18 in. \$2.75 | 2 to 2½ ft. \$5.00 | 3 to 4 ft. \$10.00
18 to 24 in. 3.75 | 2½ to 3 ft. 7.00 | 4 to 5 ft. 12.00
- Azalea mollis Hybrids** (Chinese Azaleas). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers, which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly. M
12 to 15 in. \$2.75
- Azalea mucronulata**. A most worthwhile variety for planting in front of Forsythia. Blooms at same time and the color combination is most striking. Flowers are lavender-pink. F
12 to 18 in. \$3.50 | 18 to 24 in. \$6.00 | 2 to 2½ ft. \$7.50 | 4½ to 5 ft. \$25.00
- Azalea nudiflora** (Pinxterbloom). Wild Honeysuckle. This lovely native is known to all who have tramped the woodlands in May. Fragrant pink. F
18 to 24 in. \$2.75 | 2 to 3 ft. \$4.00 | 3 to 4 ft. \$6.00 | 4 to 5 ft. \$10.00
- Azalea nudiflora rosea** (Downy Pinxter Azalea) (Deciduous). Sometimes confused with *A. nudiflora* but is hardier and deeper in coloring. Very fragrant, rosy-pink flowers. Attains 9 or 10 ft. in height, but is usually seen about 3 ft. Prefers half-shade and grows in either acid or lime soil. F
2 to 2½ ft. \$4.00 | 3 to 3½ ft. \$7.50 | 4 to 5 ft. \$15.00
2½ to 3 ft. 5.00 | 3½ to 4 ft. 10.00 | 5 to 6 ft. 25.00
- Azalea vaseyi** (Pinkshell Azalea). Shell-pink flowers in May. Blossoms cover the entire plant and make a striking picture before foliage has developed. A most lovely type. F
18 to 24 in. \$4.50 | 2½ to 3 ft. heavy \$7.50 | 3½ to 4 ft. \$12.00
2 to 2½ ft. 6.00 | 3 to 3½ ft. 10.00 | 4 to 5 ft. 15.00
- Azalea viscosa** (Swamp Azalea). A slender, upright Azalea with heavily scented pink or white flowers in July well after the leaves appear. Thrives in moist places from Maine to South Carolina and attains 4 to 8 ft. in height. F
3 to 4 ft. \$7.50 | 4 to 5 ft. \$9.00

Boxleaf Holly (Ilex convexa)

COTONEASTER

The large family of Cotoneasters has many members of high value for landscape plantings. Cotoneasters grown in an open situation generally prove to be hardy throughout northern United States. They vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit more than floral beauty, for decorative effect. They do not transplant as readily as some shrubs and must be carefully handled during the transplanting operation. The generally interesting branching habit, both the low, sprawly types and those with arching branches are decorative all year.

- C. Franchetii**. Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September; foliage grayish green. F
15 to 18 in. \$2.50 | 18 to 24 in. \$3.50
- C. Henryana**. A graceful shrub of drooping habit with reddish foliage. Bears an abundance of red-berried clusters in Fall. Fine for a slope.
15 to 18 in., 7 in. pots. \$3.75
18 to 24 in. 5.00
- C. horizontalis**. One of the most effective fruiting shrubs for the rockery. Its low branches, almost horizontal, bear a profusion of bright red berries. S
7 in. pots. \$2.75

Mountain Laurel (Kalmia latifolia)

Pieris Japonica

KALMIA Mountain Laurel

K. latifolia (*Mountain Laurel*). The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil. M
15 to 18 in. \$2.75 | 2 to 2½ ft. \$4.75
18 to 24 in. 3.50 | 2½ to 3 ft. 6.00
3 to 4 ft. \$9.00

LEUCOTHOE

L. Catesbaei (*Drooping Leucothoe*). Most beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. Prices are low for bushy plants. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks inside the home and the cutting improves the plant. M
15 to 18 in. \$2.50 | 18 to 24 in. \$4.00

PIERIS

P. japonica (*Andromeda*). Hardy Laurel-like leaved plant of unequalled value in a broadleaf planting. Glossy leaves of various shades with lovely sprays of Lily-of-the-valley-like clusters of white flowers in very early Spring. M
15 to 18 in. \$4.00 | 2 to 2½ ft. \$7.50
18 to 24 in. 5.00 | 2½ ft. heavy. 9.00
P. floribunda (*American Andromeda*). Foliage similar in size and pattern to *P. japonica* but flowers differ, growing in showy, upright clusters rather than drooping. Very much in demand for its habit of lateral growth into a handsome mound of rich green retained throughout the Winter. M
12 to 15 in. \$3.75 | 15 to 18 in. \$5.50

EVERGREEN SHRUBS—Continued

PYRACANTHA

P. coccinea Lalandii (*Firethorn*). Semi-evergreen. Strong, slender branches rising from the ground develop stubby side growths upon which are hung the numerous orange-red berries. Amazingly beautiful in the Fall, especially when planted against a gray stone background. S
6 in. pots. \$3.50 | 18 to 24 in. \$6.00
2 to 3 ft. \$7.50

RHODODENDRONS

Rhododendrons require little care after they become established, except possibly some judicious pruning to keep them full and bushy and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil which is moist but well-drained. (They dislike "wet feet".) They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

R. carolinianum. A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose pink bloom. A great favorite. S
15 to 18 in. \$3.25
18 to 24 in. 5.00
2 to 2½ ft. 6.50
2½ to 3 ft. 8.00
3 to 4 ft. 12.00
5 to 7 ft. specimens. \$25.00 to 40.00

R. catawbiense. A native, free-flowering variety, the parent of most hybrids. Will grow in any soil that is free from lime, is very hardy, and needs little attention. Large, round clusters of deep rosy purple flowers, appearing in May or June, just after *R. carolinianum*. Well budded plants. M
Bushy clumps:

15 to 18 in. \$3.75

RHODODENDRON HYBRIDS

These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids—that is, grafted stock—that the gorgeous array of colors in Rhododendrons in June are obtained. Hybrids are noted, too, for their superior foliage.

Our Hybrid Rhododendrons are the healthiest we have ever had and we offer only those varieties which are hardy in this area. M

Vanderbrocke. A crimson-red. Hardy. Late. ABC

Vanderhoop. Carmine-rose. Hardy. Late. ABC

Vanweerden Poelman. A red. Hardy. Late. ABC

A Rosedale Planting of Rhododendrons, Laurel and Pieris

ROSEDALE ROSES

Everybody likes Roses and everyone wants to grow them. Rosedale Roses are easy to grow and, because they are acclimated stock, take hold quickly in their new surroundings.

You can have a charming Rose garden in full bloom this year by planting Rosedale Roses this Spring.

All our Roses are sturdy, two-year-old, outdoor-grown stock.

We suggest April planting but you may order early and we will ship at the proper time. All Roses are sent post-paid by parcel post. Roses called for at the Nurseries are fresh dug to your order and may be planted the same day.

HARDY HYBRID TEA or EVERBLOOMING ROSES

Two years old—Field-grown—Low-budded on Multiflora stock—the Best for Outdoor Planting

Excellent in beds, borders and for cutting.

Plant: Plant 18 inches apart. Prepare bed by spading and turning over soil. Dig hole large enough to admit roots spread out. Fill in with half the soil, tamping with feet. Water thoroughly. Add rest of soil, mixed with liberal quantity of Driconure, heaping soil in mound around plant to 6-inch height. Level this mound when growth starts.

Caledonia. Large, white, very double, hardy and long lasting. Slightly fragrant.

Christopher Stone. Velvety scarlet-crimson. Very fragrant. Stands hot weather.

Condesa de Sagato. Pink, two-tone. Coppery pink inside with golden tint outside. Raspberry fragrance.

Dame Edith Helen. Glowing pink, large and full. Intensely fragrant. Continuous bloomer.

Duquesa de Penaranda. Copper-apricot in Summer; cinnamon-peach in Fall. Long-stemmed.

Edith Nellie Perkins. Pink two-tone. Salmon-pink inside; rich copper tinged outside. Large, continuous bloomer; mildly fragrant.

Etoile de Hollande. Bright red. Large, loose, semi-double flowers of great fragrance.

Frau Karl Druschki. Pointed carmine-pink buds opening to very large, double snow-white flowers—sometimes blush-pink at center. Vigorous profuse bloomer in May and June.

K. A. Viktoria. White. Soft, pearly white with lemon-yellow center. Very fragrant.

Margaret McGredy. Orange-scarlet, unfading. Very fragrant.

McGredy's Ivory. Creamy-white with yellow base. Long-pointed buds. Fragrant.

McGredy's Yellow. Long pointed buds opening to buttercup yellow flowers. Lightly fragrant. Sturdy grower.

Mme. Jules Bouche. White, blush pink in center. Fragrant and always in bloom.

Mrs. E. P. Thom. Deep yellow, perfect flowers. Fine buds. Delicate fragrance.

Pink Dawn. Deep rose opening to pink tinted with orange at base. Fragrant.

Poinsettia. The most brilliant of all red Roses. Vivid, velvety, high-centered buds open to long-lasting perfectly formed flowers. Glossy green foliage. Vigorous and hardy. We thought so much of this Rose we gave this to our customers in honor of our 50th anniversary.

Radiance. Pink. Large flower of delicate cameo-pink. Blooms all season. Intensely fragrant.

Soeur Therese. Daffodil yellow. Buds are silvery yellow; blooms have markings of mauve red. Fragrant.

HYBRID TEA ROSES

PATENTED VARIETIES

Applause (Plant Pat. No. 829). Dazzling light red. Perfectly shaped, intensely fragrant blooms. Winner of International Bagatelle Gold Medal. \$2.00 each.

Apricot Queen (Plant Pat. No. 464). Orange and apricot at base, to salmony-rose and pink. Long pointed buds. \$1.25 each.

Charlotte Armstrong (Plant Pat. No. 455). Blood-red opening to cerise. Beautifully shaped bud. Luxurious foliage. Moderate fragrance. \$1.50 each.

Countess Vandal (Plant Pat. No. 38). Bicolor. Coppery bronze and pink flooded with gold. Fine fragrance. \$1.35 each.

Crimson Glory (Plant Pat. No. 105). Oxblood red. Intense, deep vivid crimson. Wonderful fragrance. \$1.35 each.

Debonair (Plant Pat. No. 677). Rich, golden yellow. Large, double blooms. Very vigorous grower. \$1.50 each.

Diamond Jubilee (Plant Pat. No. 824). Warm, buff-yellow. Very large, long-lasting, fragrant blooms. Profuse. \$2.00 each.

Eclipse (Plant Pat. No. 172). Yellow. A rich, clear gold color. Produces abundantly. Continuous bloomer. \$1.35 each.

Forty-Niner (Plant Pat. No. 792). 1949 All-America Rose Winner. Probably the most brilliant of all bicolored Roses. The inside of the petals is a vivid red with the outside a chrome yellow. A beautiful, tall and vigorous growing plant. Long-budded, mildly fragrant. \$2.00 each.

K. T. Marshall (Plant Pat. No. 607). Deep coral-pink suffused with yellow. Fruity fragrance. Tall, hardy and very vigorous. \$1.35 each.

Lowell Thomas (Plant Pat. No. 595). Clear, canary yellow. Large, very double blooms. Intermittent bloom. \$1.50 each.

Mary Margaret McBride (Plant Pat. No. 537). Deep coral pink. Large, high-centered blooms. Excellent form and color. \$1.50 each.

Mirandy (Plant Pat. No. 632). Maroon red. Both buds and blooms of unusual brilliance. Extremely large, very double flowers of penetrating fragrance. \$1.50 each.

Nocturne (Plant Pat. No. 713). One of the finest reds—an All-America Award Winner for 1948. Longest, streamlined buds. Cardinal-red with crimson shadings. \$1.50 each.

Peace (Plant Pat. No. 591). Canary yellow to creamy ivory. Deep yellow buds with cerise-tipped edges swelling to creamy-white blooms with delicate pink tints. Unusually large, double and long-lasting. The 1946 All-America Award Winner. \$2.00 each.

Rubaiyat (Plant Pat. No. 758). Rose-red. Very fragrant, double; long pointed buds. \$1.50 each.

Show Girl (Plant Pat. No. 646). Deep pink. Long, firm buds of rich coloring, on long stems making for excellent cutting. Delicate fragrance. A sturdy plant. \$1.50 each.

Tallyho (Plant Pat. No. 828). 1949 All-America Winner. A very unusual shade of pink with the outside of the petals almost a crimson. Beautiful buds on long stems unfold slowly to full, many petaled blooms. Rich, spicy fragrance. Easy to grow. \$2.00 each.

RELIABLE CLIMBING ROSES

These excellent proven varieties are of vigorous, flowering stock and will be a constant source of satisfaction on walls, fences or trellises. They require little care.

Plant 4 feet apart.

Blaze (Plant Pat. No. 10). Scarlet. Vividly shaded, double flowers. An improved variety of Paul's Scarlet. Takes on everblooming characteristics as plant matures. \$1.50 each, \$15.00 per dozen.

Dr. J. H. Nicolas. Cupped, rose-pink, very fragrant blooms in clusters. Very large flowers—almost 6 in. in diameter. \$1.50 each, \$15.00 per dozen.

High Noon (Plant Pat. No. 704). Intense clear yellow. Long-stemmed, perfect buds. Produces all season. All-America winner. \$2.00 each, \$20.00 per dozen.

Mme. Gregoire Staechlin. Delicate pink flowers, stained crimson on outside. Huge, fragrant blooms in abundance in June. \$1.25 each, \$12.50 per dozen.

Mary Wallace. Bright pink flowers with luminous sheen. Very large, semi-double, fragrant. Famous dooryard Rose. \$1.25 each, \$12.50 per dozen.

New Dawn (Plant Pat. No. 1). Delicate pink. Blooms intermittently all Summer and Fall. One of the hardest climbers. \$2.00 each, \$20.00 per dozen.

Paul's Scarlet. Red. Intensely red flowers borne in loose clusters. Most popular red climber. \$1.00 each, \$10.00 per dozen.

TRAILING GROUND COVER ROSES

Max Graf. Pink. Large single, shining pink flowers. Fine for banks and rocks. 75c. each, \$7.50 per dozen.

Wichuraiana. White. Clusters of starry white flowers. Glossy leaves. One of the best for bank covers. 75c. each, \$7.50 per dozen.

MISCELLANEOUS ROSES

Skyrocket. Hardy, shrub-like in character. Bears deep pink blooms throughout the season. Often covered with blooms, buds, and seed pods at the same time. \$1.25 each.

Rosa Hugonis. Dainty, single yellow flowers on shrub-like plant. First to bloom in the early Spring. \$1.25 each.

TREE ROSES

None available this year.

An almost complete crop failure of Tree Roses this past year makes necessary our withdrawing this popular item from our list. Rather than offer the few rather poor trees available, we ask you to bear with us until the next crop is ready.

\$15 per dozen

Pinkie

(Plant Pat. No. 712)

A delightful little pink Rose bush of Floribunda type but attaining only 18 to 24 inches. Its dainty perfectly formed buds completely cover the mounded, compact bush and will outbloom any other Floribunda. Excellent for low borders.

\$1.50 ea. \$15 per doz.

Pinkie (Pat. No. 712)

Pinocchio (Pat. No. 484)

Pinocchio

(Plant Pat. No. 484)

Small, semi-double pink blooms suffused with salmon. Dwarf, very bushy type. Very popular Floribunda Rose.

\$1.25 each

\$12.50 per dozen

High Noon

(Plant Pat. No. 704)

This glorious, new everblooming climber bears prolifically, producing myriads of long-stemmed brilliant yellow buds. Delightful spicy fragrance. A 1948 winner.

\$2.00 each, \$20.00 per dozen

High Noon (Pat. No. 704)

Goldilocks

(Plant Pat. No. 672)

A neat cheeriness is added to your garden with these clear, golden-yellow blooms in clusters amid dark, glossy green leaves. Very fragrant, abundant, continuous blooms.

\$1.50 each, \$15.00 per dozen

World's Fair

(Plant Pat. No. 362)

This Floribunda Rose gives a continuous show of dark velvety clusters of scarlet-to-maroon color from early Summer to frost. The large, double flowers when open show a mass of golden stamens.

\$1.25 each, \$12.50 per dozen

Goldilocks
(Pat No. 672)

World's Fair (Pat. No. 362)

ROSEDALE ROSES

One section of our scientifically controlled storage cellar showing some of our Roses. Rosedale's modern facilities for handling nursery stock assure you of the finest, healthiest plants.

It's easy to grow really fine garden Roses with simple, quick care. For good results we recommend Du Pont Rose Dust as most satisfactory for home use. It is extremely easy to use—no mixing, no measuring required.

8-oz. Rose Dust Gun, ready to use... \$0.79
1 lb. can Rose Dust, refill... 1.15

Special: With every purchase of Roses, we offer 1 lb. Du Pont Rose Dust and a 50-lb. bag of Driconure for \$3.25.

FLORIBUNDA ROSES

Floribunda Roses are large-flowered, Polyantha-type Shrub Roses. They are very hardy and are truly everblooming, producing masses of blooms. Good for bedding and borders and the finest group of Roses for hedge purposes.

Plant 2 to 3 feet apart.

Donald Prior (Plant Pat. No. 377). Red. Bright scarlet tinted with crimson. Semi-double and very free flowering. Fragrant. Continuous bloomer. \$1.25 each, \$12.50 per dozen.

Fashion (Plant Pat. No. 789). Oriental-red buds open to blooms of coral-pink suffused with gold. A new, eye-arresting color. Masses of long-lasting blooms. Enchanting delicate fragrance. 1949 Bagatelle Gold Medal winner. \$2.00 each, \$20.00 per dozen.

Floradora. Brilliant vermilion blooms. Profuse and continuous, June to Fall. \$1.25 each, \$12.50 per dozen.

Pink Bountiful (Plant Pat. No. 601). Soft, glowing pink. Profuse mass of color all Summer. Blooms open like miniature Hybrid Teas. Charming, nutty fragrance. \$1.25 each, \$12.50 per dozen.

Pinkie. Large, double, slightly fragrant pink flowers. Dwarf, bushy grower. Blooms profusely. \$1.50 each, \$15.00 per dozen.

Pinocchio (Plant Pat. No. 484). Small semi-double pink suffused with salmon blooms. Dwarf, bushy type. Very popular. \$1.25 each, \$12.50 per dozen.

Red Pinocchio (Plant Pat. No. 812). Glowing, velvety carmine. Wild Rose fragrance. Masses of full-clustered blooms. Exceptionally free flowering. \$1.50 each, \$15.00 per dozen.

Floribunda Roses

Red Sweetheart (Plant Pat. No. 577). Crimson-carmine. Dainty, tiny blooms of "sweetheart" type. Different from the usual Floribunda. \$1.25 each, \$12.50 per dozen.

Smiles (Plant Pat. No. 331). Salmon-pink. Cherry beauty in form and color from early Spring to frost. Beautifully shaped flowers in clusters, shiny dark green foliage. Delicately scented. \$1.25 each, \$12.50 per dozen.

World's Fair (Plant Pat. No. 362). Scarlet to maroon. Dark, velvety clusters of blooms virtually hide this bushy plant. Large, double flowers open to show a mass of golden stamens. \$1.25 each, \$12.50 per dozen.

Here Is the Answer to Your Gift Problems! A Gift Certificate

LIVING PLANTS—the gifts that grow in size and value as the years go on. Easy to arrange for a certificate either at the nurseries or by mail.

Gift certificates are easily redeemable at any of over 1200 nurseries which are members of the American Association of Nurserymen, throughout the United States of America.

Just do these three simple things:

- Send us: 1. The name and address of the person who is to receive the certificate.
2. YOUR name and address.

- We will: 1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
2. Send you a copy of the certificate for your records.

3. Send the Gift Certificate so as to arrive on a certain date, if you will tell us the date.

A plant or tree is always in good taste, always welcome, always suitable for any occasion—Birthdays, Easter, Christmas, House-warmings, Anniversaries, etc.

ISSUING NURSERY RECORD

There is no need to ponder WHAT to select; the recipient makes his own choice. He has the fun of selecting just what he wants at any nursery displaying the A.A.N. membership seal. You have no shipping costs; no loss of time—especially in those last-minute crises.

For those in our immediate area, we have, also, our own Gift Certificate, redeemable only at Rosedale. This Rosedale Gift Certificate has the added feature of enabling you to select the plant to be given—omitting mention of a stipulated amount. Many people prefer this. However, the Rosedale certificate is so worded that either the particular plant OR the amount given may be specified.

More and more people are using this intriguing way—the Gift Certificate way—of remembering—and being remembered.

Hydrangeas in Bloom at Mid-summer in the Nurseries

FLOWERING SHRUBS

Shrubs are vitally important in creating the pleasing and ever-changing effect in the home and garden landscape. A succession of blooms and foliage color changes marks the seasons with their varied pictures.

In beds or borders, as backgrounds or hedges, or in groups, Flowering Shrubs point to one of the most inexpensive ways of obtaining better landscaping. While if allowed to go uncared for, some Shrubs may get coarse and overgrown, this can be avoided easily by a little simple pruning.

A wise choice of Shrubs will bring you colorful blossoms throughout the entire growing season. We have taken particular pains in growing our stock to keep them well-spaced to encourage maximum development.

ALL BARE ROOT EXCEPT WHERE INDICATED B&B

Although authorities differ, we have tried, in an effort to aid you in your selection, to give the consensus of opinion in coding our plant material as to speed of growth:

S—Slow growing

F—Fast growing

M—Moderate growing

PLANTING BARE ROOT MATERIAL

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (*Shows on trunk or main stem.*)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

For planting B&B material, please see instructions on page 6.

SOME SUGGESTIONS FOR USING FLOWERING SHRUBS:

SHRUBS FOR DRY PLACES, ALSO FOR ADVERSE CITY CONDITIONS

<i>Acanthopanax Sieboldianus</i>	<i>Fiveleaf Arolia</i>
<i>Berberis Thunbergii</i>	<i>Japanese Barberry</i>
<i>Colutea arborescens</i>	<i>Bladder-senna</i>
<i>Elaeagnus angustifolia</i>	<i>Russian Olive</i>
<i>Forsythia spectabilis</i>	<i>Golden Bell</i>
<i>Ligustrum</i> , in variety.....	<i>Privet</i>
<i>Rhodotypos tetrapetala</i>	<i>Jetbead</i>
<i>Spiraea Vanhouttei</i>	<i>Bridalwreath</i>
<i>Symphoricarpos orbiculatus</i>	<i>Coralberry</i>
<i>Syringa vulgaris</i>	<i>Lilac</i>

SHRUBS FOR WET PLACES

<i>Amelanchier canadensis</i>	<i>Shadblow</i>
<i>Aronia arbutifolia</i>	<i>Red Chokeberry</i>
<i>Azalea viscosa</i>	<i>Swamp Azalea</i>

<i>Sorbaria Aitchisonii</i>	<i>Falsespirea</i>
<i>Vitex Agnus-castus latifolia</i>	
ACANTHOPANAX Sieboldianus (<i>Aralia pentaphylla</i>). An attractive, prickly shrub of dense growth. The lovely, bright green leaves of tropical appearance make it desirable for a hedge, bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions. M	
3 to 4 ft.....	\$1.75 4 to 5 ft.....\$2.50
AMELANCHIER canadensis . Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June. F	
2 to 3 ft.....	\$1.25 3 to 4 ft.....\$2.00

Deutzia gracilis

Flowering Quince (*Chaenomeles lagenaria*)

ARONIA arbutifolia brilliantissima (*Brilliant Chokeberry*). Handsome red, Autumn foliage on a shrub of modest, upright growth. Abundance of brilliant red berries, very attractive to birds. F
3 to 4 ft..... \$1.75

AZALEAS, Deciduous. While certain Azaleas are deciduous—that is, lose their leaves during the Winter—we feel that it is better to list all Azaleas together. Therefore both deciduous and evergreen types will be found under Broadleaved Evergreens.

BERBERIS mentorensis (Plant Pat. No. 99). A brand new variety of strong, rugged, upright habit. More beautiful than Japanese Barberry. Able to withstand heat and drought. Foliage darkest green and holds late in Fall. Highly recommended. M
15 to 18 in. .75c. each, \$8.50 per 12 | 18 to 24 in. 90c. each, \$10.00 per 12
2 to 2½ ft.....\$1.10 each, \$12.00 per 12

B. Thunbergii (*Japanese Barberry*). Commonly used in hedges. Red berries in the Fall. M
18 to 24 in. 60c. each, \$45.00 per 100 | 2 to 2½ ft. \$1.00 each, \$90.00 per 100

B. Thunbergii atropurpurea (*Redleaf Barberry*). Very similar to B. Thunbergii except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily. M
15 to 18 in..... .60c. each, \$45.00 per 100
18 to 24 in..... .90c. each, \$85.00 per 100
2 to 3 ft.....\$1.50 | 3 to 4 ft.....\$3.50

BUDDLEJA Davidii, Charming (*Butterflybush*). A glorious shrub, bearing throughout the late Summer and Autumn elegant sprays with lavender-pink blooms. F
Potted 6 in. pots.....\$1.25

B. D. Dubonnet. A glorious color—a counterpart of the popular French wine, Dubonnet. Erect, strong-stemmed. F
Potted 6 in. pots.....\$1.25

B. D. Empire Blue (Plant Pat. No. 557). We have seen no other blue Buddleja that compares with this. The color is an Aster-blue with a delicate lilac tone, the whole effect being an exquisite shade of blue.
2 yr.....\$0.75 | Potted 6 in. pots.....\$1.25

B. D. Ile de France. Fragrant, brilliant rosy purple flowers, suffused violet. Profuse bloomer. Large flower spikes. F
Potted 6 in. pots.....\$1.25

B. D. Pink Dawn. Abundant, truly pink blooms throughout Summer and Fall. Excellent for cutting, sprays often 2 to 3 ft. long. Compact plant, attaining 4 or 5 ft. in height. Deep green foliage. Best pink Buddleja. F
2 yr.....\$0.75 | Potted 6 in. pots.....\$1.25

B. D. Royal Red (Plant Pat. No. 556). The first truly red Butterflybush. Fragrant, and fine for cutting. Medium growth. F
2 yr.....\$0.75 | Potted 6 in. pots.....\$1.25

FLOWERING SHRUBS—Continued

BUDDLEJA Davidii, Snowbank. This new, white Buddleja produces fully round and compact sprays measuring 10 to 15 in. in length and carries an abundance of deep, dark green foliage. Snow white.

2 year.....\$0.75
6 in. potted.....1.25

Collection—BUDDLEJA

4 NEW VARIETIES IN DELIGHTFUL COMBINATION

VERY SUPERIOR

1 Each for.....\$2.75
Empire Blue Pink Dawn Royal Red Snowbank

CALYCANTHUS floridus (Sweet Shrub). An old-fashioned shrub, with chocolate-colored blossoms. Leaves and bark have a spicy fragrance. A splendid bush. M

2 to 3 ft....\$1.00
3 to 4 ft.....1.75

CARYOPTERIS, Blue Mist. A charming, low-growing, shrub flowering in Summer and Fall. Covered with blue, mist-like blooms from August to frost. M

2 yr. plants.....\$1.00

CHAENOMELES lagenaria (Flowering Quince). Early blooming shrub, with shiny, green foliage and deep crimson flowers. M

18 to 24 in.....\$1.00
2 to 3 ft.....1.50

C. Coral Pink. Very prostrate in growth. Excellent for bank plantings. M

18 to 24 in. spread, extra heavy.....\$1.50
3 ft. spread, extra heavy.....2.00

White Rose of Sharon (Hibiscus totus alba)

CHIONANTHUS virginica (White Fringetree). One of the most striking native small trees or shrubs because of its handsome, glossy, Magnolia-like leaves, which turn a bright golden yellow in Autumn. Produces masses of loose panicles of feathery petaled snow-white flowers in Midsummer. F

5 to 6 ft.....\$5.00

CLETHRA alnifolia (Sweet Pepperbush). An upright, slow-growing shrub with spikes of fragrant white flowers in late Summer. Fine for naturalizing. S

18 to 24 in.....\$1.25
2 to 3 ft.....1.75
3 to 4 ft.....2.25

COLUTEA arborescens (Common Bladderseed). Showy display of clusters of bright yellow pea flowers with red markings, which bloom from May to Midsummer. Fruits are very decorative pinkish-green, bladder-like pods from which plant obtains its common name. M

3 to 4 ft.....\$1.50
4 to 5 ft.....2.00

COTINUS Coggyria (Bronze Smoke Tree). This bronze-leaved and bronze-plumed Smoke Tree is unusual and especially handsome. Growth is rapid attaining 12 to 20 ft. and attracts much favorable comment. F

4 to 5 ft., B&B.....\$9.00

DEUTZIA gracilis (Slender Deutzia). A dwarf variety with small, white flowers that completely cover it in May. S

12 to 15 in.....\$0.75
15 to 18 in.....1.00
18 to 24 in.....1.50

D. rosea (Rose-petioled Deutzia). Pink form of D. gracilis. Branches of this pink Deutzia are very graceful. S

15 to 8 in.....\$0.75
18 to 24 in.....1.00

D. scabra plena. White flowers borne in July in great profusion. A handsome shrub of vigorous habit. Attains about 8 ft. in height. F

2 to 3 ft.....\$0.75
3 to 4 ft.....1.25
4 to 5 ft.....2.00

ELAEAGNUS angustifolia (Russian Olive). A spreading bush with silvery-gray bark. Fragrant, yellow flowers followed by orange fruit. It is fine for show, hedgerow or screen planting. F

5 to 6 ft.....\$3.50 | 6 to 7 ft.....\$5.00

ENKIANTHUS campanulatus (Redvein Enkianthus). Without artificial shaping, will develop into a handsome, large shrub, well clothed with clean foliage which turns brilliant red in Fall. Bunches of nodding flowers are borne on the whorled branches and these red-veined white cups are quite unlike any other flower. S

3 to 4 ft.....\$6.00 | 4 to 5 ft.....\$7.50
5 to 6 ft.....\$10.00

EUONYMUS alatus (Corkbark Euonymus). Particularly striking shrub, especially in Autumn and Winter, with corky wings and scarlet Fall foliage and berries. Blooms white. M

2 to 3 ft.....\$1.50 | 3 to 4 ft.....\$2.00

E. alatus compactus. Just as beautiful and much neater and slower in growth than the original. A grand specimen or may be used in foundation planting. S

18 to 24 in.....\$1.75 | 3 to 4 ft.....\$4.50
2 to 3 ft.....2.50 | 4 to 5 ft.....7.50

FORSYTHIA intermedia, Spring Glory (Primrose Forsythia). Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F

2 to 3 ft.....\$1.00 | 3 to 4 ft.....\$2.50
4 to 5 ft.....\$4.00

F. intermedia spectabilis (Showy Border Forsythia). By far the best of the Forsythias in color, size of flower and profusion of bloom. Use a bold group for early Spring effect. F

2 to 3 ft.....\$0.75 | 4 to 5 ft.....\$1.75
3 to 4 ft.....1.00 | 4 to 5 ft., extra heavy.....2.50

Hydrangea Hortensis

Beautybush (Kolkwitzia)

FLOWERING SHRUBS—Continued

HAMAMELIS virginiana (*Witch-hazel*). Irregular spreading shrub with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun. M
2 to 3 ft.\$1.00 | 4 to 5 ft.\$2.50
3 to 4 ft.1.50 | 5 to 6 ft.3.50

HIBISCUS syriacus (*Rose of Sharon*). A rather erect and tall growing shrub of neat form. Blooms in late Summer, beginning in August and lasting usually until heavy frosts. Splendid plants in following varieties. M

H. s. anemonaeeflorus. Semi-double white with dark center.\$1.75
3 to 4 ft.

H. s. Boule de Feu. Double red.\$1.00
2 to 3 ft.

H. s. coelestis. Single, blue. An outstanding, newer form of a delightful shade.\$2.00
2 to 3 ft.\$1.50 | 3 to 4 ft.

H. s. Jeanne d'Arc. Double white.\$1.75
2 to 3 ft.\$1.00 | 3 to 4 ft.

H. s. Lady Stanley. Double, bluish-white, splashed with deep pink. A very popular color and one of the best.\$1.75
2 to 3 ft.\$1.00 | 3 to 4 ft.

H. s. paeoniflorus (*Peony Althea*). Semi-double white with carmine center.\$1.75
2 to 3 ft.\$1.00 | 3 to 4 ft.

H. s. totus alba. Finest single white of all.\$1.75
2 to 3 ft.\$1.00 | 3 to 4 ft.

HYDRANGEA arborescens (*Summer Hydrangea*). Large, pure white blooms in July and August. F
3 yr. clumps.\$1.50

H. hortensis (*Bigleaf Hydrangea*). Sometimes called the greenhouse Hydrangea. Bushy growth; flowers profusely in pink or blue shades according to soil acidity. F
3 yr.\$1.75

H. paniculata grandiflora (*Peegee Hydrangea*). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F
2 to 3 ft.\$1.25
3 to 4 ft.1.75
4 to 5 ft.2.50

H. Peegee (*Tree Form*). The standard or tree form can stand alone or in groups but need not be supported. The immense blooms weigh the branches down creating a weeping tree when in full bloom. An old-fashioned favorite. F
3 to 4 ft. tree.\$2.50
4 to 5 ft. tree.3.50

HYPERICUM aureum (*Golden St. Johnswort*). The golden-yellow flowers in July and August measure 1 to 2 in. in diameter. Very interesting looking with its blue-green leaves, angular twigs, and peeling bark. This dense, upright shrub reaches about 3 ft. and is very hardy. S
18 to 24 in.\$1.00

H. prolificum (*St. Johnswort*). A showy shrub of stiff, dense habit. Grows to 3 ft. Brilliant yellow flowers from July to September. S
2 to 3 ft.\$1.25

ILEX verticillata (*Winterberry*). Berrying plants. A fine, native shrub, carrying its bright red berries practically all winter. Upright habit with black bark and clean, attractive foliage. Plant in groups to insure production of berries. M
2 to 3 ft.\$1.25 | 4 to 5 ft.\$3.50
3 to 4 ft.2.00 | 5 to 6 ft.5.00

KOLKOWITZIA amabilis (*Beautybush*). A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M
2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00
4 to 5 ft. heavy.\$5.00

LIGUSTRUM amurense (*Amur Privet*). True, hardy, upright variety with lustrous leaves. Good hedge plant for quick-growing screen as plants will attain 15 ft. in height. F
2 to 3 ft.\$2.75 per doz., \$22.50 per 100

L. obtusifolium (*Ibota Privet*). Graceful, arching branches with small, white flowers in clusters. Makes a splendid informal hedge. Exceptionally hardy. F
3 to 4 ft.\$0.85 | 4 to 5 ft.\$1.50
5 to 6 ft.\$2.50

L. ovalifolium (*California Privet*). The form most commonly used for hedges. F
2 to 3 ft.\$2.50 per doz., \$20.00 per 100
3 to 4 ft.3.50 per doz., 27.50 per 100

L. Regelianum (*Regel Privet*). A low spreading form, almost horizontal. S
2 to 3 ft.\$1.00

Jetbead

PHILADELPHUS Minnesota Snowflake (Plant Patent No. 538). A grand addition to the Philadelphus family which produces a profusion of large, very double, pure white flowers of some fragrance. Shrub grows bushy and shapely and in this respect very superior to Philadelphus Virginal. M
2 to 3 ft.\$1.50 | 3 to 4 ft.\$2.00
4 to 5 ft.\$3.50

P. virginalis (*Double Mockorange*). Fine, double-flowering variety which blooms profusely. Fragrant. M
18 to 24 in.\$1.25 | 2 to 3 ft.\$1.50
3 to 4 ft.\$2.00

PRUNUS glandulosa (*Flowering Almond*). Profusion of deep pink, double rosettes on bare stems in late April and early May. Pink or white. M
18 to 24 in.\$1.25
2 to 2 1/2 ft., heavy.1.75
2 1/2 to 3 ft.2.50
3 to 4 ft., B&B.3.50

RHODOTYPOS tetrapetala (*Jetbead*). Small, shapely shrub, bearing white flowers and black berries. Foliage handsome. Good for shade. M
2 to 3 ft.\$1.25 | 3 to 4 ft.\$2.50
4 to 5 ft.\$3.50

SALIX caprea (*Pussy Willow*). Desirable for early Spring effects and will do well in dry locations as well as wet. F
2 to 3 ft.\$0.85 | 6 to 8 ft.\$7.50

S. purpurea nana (*Dwarf Blue-leaf Arctic Willow*). A charming, low-growing Willow, suitable for edging and other small hedges. The foliage is a lovely silvery green. Plant 8 in. apart. M
18 to 24 in.\$7.50 per 12, \$50.00 per 100
2 to 3 ft.\$10.00 per 12

SORBARIA Aitchisonii (*Falsespiraea*). Brilliant green foliage and red stems make this extremely handsome. Clusters of foamy white flowers in late Midsummer. Grows to 6 or 8 ft. F
2 to 3 ft.\$1.50

SPIRAEA Bumalda, Anthony Waterer (*Dwarf Spirea*). A small, compact shrub with pink flowers in July. M
18 to 24 in.\$1.25
2 to 3 ft.1.75

S. prunifolia (*True Bridalwreath*). Long racemes of pure white flowers in May. Small, glossy foliage. M
18 to 24 in.\$1.00
2 to 3 ft.1.50
3 to 4 ft.2.00

S. Thunbergii (*Thunberg Spirea*). Semi-dwarf sort with very fine foliage and small white flowers. Dense. M
2 to 3 ft.\$1.25
3 to 4 ft.1.75
3 to 4 ft., heavy.2.50

S. Vanhouttei. Ever popular variety, producing an abundance of small white flowers in clusters. F
2 to 3 ft.\$0.75
3 to 4 ft.1.00
3 to 4 ft., heavy.1.50
4 to 5 ft.2.50

Smoke Tree (*Cotinus Coggygria*)

LINDERA Benzoin (*Spicebush*). Native shrub with fringed yellow flowers in early Spring. Leaves and twigs aromatic. F
2 to 3 ft.\$1.25
3 to 4 ft.1.75

LONICERA tatarica (*Upright Honeysuckle*). Finest in habit of Bush Honeysuckles. A rapid grower attaining 10 to 12 ft. in height. May be had in either Pink or Whiteflowering varieties. F
2 to 3 ft.\$1.00
3 to 4 ft.1.50
4 to 5 ft.2.75

L. Korolkowii Zabellii. A new, very red shrub Honeysuckle of medium growth. Bears an abundance of red fruit and blossoms are bright and in great profusion. M
2 to 3 ft.\$1.25
3 to 4 ft.1.75
4 to 5 ft.2.75

PHILADELPHUS coronarius (*Sweet Mockorange*). Extremely fragrant variety of Mockorange. Blooms white in May and June. F
2 to 3 ft.\$1.00
3 to 4 ft.1.50
4 to 5 ft.2.50
5 to 6 ft.3.50

Lilac

FLOWERING SHRUBS—Continued

SYRINGA—Lilac

We have a quantity of plants much larger than those listed here and we shall be pleased to receive your inquiries or have you make a personal inspection of them.

HYBRID LILACS

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow and bloom when they are even younger. The flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. Here is a list of favorite varieties which are so exquisitely lovely and different that you will want them all in the border as specimens. M

2 to 3 feet, B&B.....	\$2.75
3 to 4 ft., B&B.....	3.50
4 to 5 feet specimens, B&B.....	\$7.50 to 10.00
5 to 6 feet specimens, B&B.....	9.00 to 12.00

Larger sizes priced on application

All Rosedale Lilacs carry a ball of earth to insure quick starting and real, husky first year growth. There is no extra charge for this better method of handling. Many new varieties in this list are most exciting.

Alphonse Lavalle. Double sky blue.....	5 to 6 ft., 6 to 7 ft.
Belle de Nancy. Double satiny rose.....	2 to 3 ft.
Capitaine Baltet. Single violet red.....	3 to 4 ft., 5 to 6 ft.
Charles Joly. Purple red; one of the best double reds.....	2 to 3 ft., 3 to 4 ft.
Charles X. Single, rich purple-red.....	2 to 3 ft.
Glory. Single, large flower of lilac shade.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Lamartine. Early, mauve pink.....	3 to 4 ft.
Leon Gambetta. Double mauve pink.....	3 to 4 ft., 4 to 5 ft.
Lucie Baltet. Single, coppery pink.....	2 to 3 ft., 3 to 4 ft., 5 to 6 ft.
Macrostachya. Single, light pink.....	2 to 3 ft., 3 to 4 ft., 5 to 6 ft.
Marechal Foch. Single, crimson to pink.....	3 to 4 ft.

Lilac Hybrids

Marie Le Graye. Single, white.....	2 to 3 ft.
Mme. Casimir Perier. Double white.....	3 to 4 ft., 4 to 5 ft.
Mme. F. Morel. Single lavender.....	4 to 5 ft., 6 to 7 ft.
Mme. Lemoine. Tall-growing, double white.....	2 to 3 ft.
Monge. Single, claret purple.....	4 to 5 ft., 5 to 6 ft.
Pasteur. Single purple.....	5 to 6 ft., 6 to 7 ft.
Paul Thirion. Double claret rose.....	2 to 3 ft., 3 to 4 ft.
Pres. Fallieres. Double, lavender-pink.....	2 to 3 ft., 3 to 4 ft.
Pres. Grevy. Double, popular blue.....	2 to 3 ft., 3 to 4 ft.
Pres. Poincare. Double purple red.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Pres. Viger. Double, deep blue.....	5 to 6 ft.
Souvenir de Ludwig Spaeth. Single, reddish purple.....	2 to 3 ft.
Violetta. Double, deep violet-blue.....	2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

S. persica (Persian Lilac). A graceful shrub, with slender branches and single, pale lilac flowers. M
2 to 3 ft.....\$1.50

S. chinensis (Chinese Lilac). Slender branched, graceful Lilac, producing abundant light lavender blooms early in the season. Good for border planting.
2 to 3 ft.....\$1.50
3 to 4 ft.....2.25

S. vulgaris (Common Purple Lilac). Considered by many as fine as any hybrid. Bears large clusters of fragrant purple flowers in May. M
2 to 3 ft.....\$1.50
3 to 4 ft.....2.50
4 to 5 ft.....6.00
5 to 6 ft.....10.00

S. vulgaris alba (Common White Lilac). Fragrant single white flowers. M
2 to 3 ft.....\$1.50
3 to 4 ft.....2.50
4 to 5 ft.....5.00
5 to 6 ft.....7.50

STEPHANANDRA incisa (Lace Shrub). Splendid shrub of erect habit, with cut foliage. Striking at all seasons. M
2 to 3 ft.....\$1.25

SYMPHORICARPOS albus laevigatus (Snowberry). Pink flowers and white berries in profusion. Thrives in shade, and is excellent for hill-side. F
2 to 3 ft.....\$0.85
3 to 4 ft.....1.25
4 to 5 ft.....2.00

Spiraea Vanhoutteii

SYMPHORICARPOS Chenaultii. Pink-berried form of Coralberry. Grows compact and has a better than average foliage. F
2 to 3 ft.....\$0.85
3 to 4 ft.....1.50

S. orbiculatus (Coralberry). Bears clusters of small red berries which remain most of the Winter. F
2 to 3 ft.....\$0.85
3 to 4 ft.....1.25

VACCINIUM corymbosum (Highbush Blueberry). A very desirable shrub for native planting. Flowers are creamy white. Brilliant Autumn foliage. M
2 to 3 ft.....\$2.00
3 to 4 ft.....3.00
4 to 5 ft.....5.00

VITEA Agnus-castus latifolia. A graceful shrub with attractive spikes of lovely lavender blue flowers. Blooms profusely from July to frost. Dies back in Winter, similar to Buddleia. F
2 year.....\$1.00

FLOWERING SHRUBS—Continued

VIBURNUMS

Probably comprise more desirable varieties for landscape use than any other family of Shrubs.

V. Burkwoodii. Often called an improved *Viburnum Carlesii*, differing in growth, foliage and time of bloom which is earlier. Growth is vigorous and foliage glossy. Flowers creamy white and very fragrant. S

Heavy, 5 ft. specimens only.....\$17.50 to \$25.00

V. Carlesii (*Fragrant Viburnum*). Most fragrant of all flowering shrubs. A blossom of this delightful shrub will scent an entire room. Fairly dwarf and slow in growth, it eventually attains 5 to 6 ft. in height. Blooms are creamy white and borne in considerable profusion. Very scarce. S

15 to 18 in.....\$2.50

18 to 24 in.....3.50

2 to 2½ ft.....4.50

2½ to 3 ft.....6.00

3 to 3½ ft.....9.00

Heavy, 4 to 6 ft. specimens.....\$17.50 to \$25.00

V. cassinoides (*Witherod*). Large clusters of white flowers in June precede green berries which change to pink and finally blue-black. Leathery leaves add their touch of crimson and purple in Fall. An exceptionally clean, neat shrub which does well in moist places. F

2 to 3 ft.....\$1.25

3 to 4 ft.....2.00

V. dentatum (*Arrowwood*). Bushy shrub with white flowers and blue berries. Fine for shade. F

2 to 3 ft.....\$1.00

3 to 4 ft.....1.75

4 to 5 ft.....2.50

5 to 6 ft.....5.00

V. dilatatum (*Linden Viburnum*). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries which turn the entire shrub red. M

2 to 3 ft.....\$1.50

3 to 4 ft.....2.50

4 to 5 ft.....5.00

5 to 6 ft.....8.00

Heavy specimens.....Priced on selection

V. Opulus (*Highbush Cranberry*). White flowers, followed by Cranberry-like fruit which persists all Winter. Rapid grower. F

3 to 4 ft.....\$1.75

4 to 5 ft.....2.75

V. plicatum tomentosum (*Single Japanese Snowball*). White flowers in profusion, followed by red berries. Foliage red in Fall. M

18 to 24 in.....\$1.00

2 to 3 ft.....1.25

3 to 4 ft.....2.50

3 to 4 ft., heavy.....3.50

4 to 5 ft.....5.00

Weigela, Bristol Ruby

Highbush Cranberry (*Viburnum opulus*)

V. Sieboldii. Vigorous shrub, attaining great size. Berries pink, changing to black. Large, deep green, leathery leaves. F

2 to 3 ft.....\$1.25

3 to 4 ft.....2.00

4 to 5 ft.....3.50

V. setigerum aurantiacum. Large compound white flowers followed by huge clusters of bright orange berries. Probably the most showy of all Viburnums when in berry. M

2 to 3 ft.....\$1.50

3 to 4 ft.....3.00

WEIGELA, Bristol Ruby (*New*) (*Improved Eva Rathke*). Bristol Ruby is a better Eva Rathke. Hardier and more vigorous, developing to a shapely shrub. Color is a soft ruby red shading to garnet crimson. F

2 to 3 ft.....\$1.50 | 3 to 4 ft.....\$2.00

W. Eva Rathke. Slower growing than other Weigelas. Dark crimson flowers in profusion. Generally a small shrub. F

2 to 3 ft.....\$1.00

W. Feerie. A fine pink Weigela, less coarse than other varieties. This graceful shrub produces an enormous profusion of charming flowers a week or so earlier than Florida. A most delightful soft pink. F

2 to 3 ft.....\$1.50 | 3 to 4 ft.....\$2.00

W. floribunda. Extremely vigorous, bright crimson flowers. Generally a large shrub. F

2 to 3 ft.....\$0.75 | 3 to 4 ft.....\$1.00

4 to 5 ft.....\$1.50

W. Florida. Medium growth with rose-colored flowers in June. F

2 to 3 ft.....\$0.75 | 3 to 4 ft.....\$1.00

4 to 5 ft.....\$1.75

W. Gustav Mallot. A fine red variety of much sturdier growth than Eva Rathke, growing somewhat larger. Highly recommended. F

3 to 4 ft.....\$2.00

Trees and Shrubs Attractive to Birds

In response to the growing interest in plants which attract birds, we make the following suggestions, keeping in mind the fact that nesting sites as well as fruits are important:

Berberis Thunbergii	<i>Japanese Barberry</i>
Cornus florida	<i>Flowering Dogwoods</i>
Elaeagnus angustifolia	<i>Russian Olive</i>
Euonymus	<i>Corkbark</i>
Evergreens	All evergreen trees for nesting
Hypericum prolificum	<i>St. Johnswort</i>
Ilex verticillata	<i>Winterberry</i>
Juniperus communis hispanica	<i>Slender Juniper</i>
Juniperus virginiana	
Lindera Benzoin	<i>Spicebush</i>
Lonicera tatarica	<i>Tatarian Honeysuckle</i>
Malus	<i>Flowering Crabs</i> , in variety
Parthenocissus quinquefolia	<i>Virginia Creeper</i>
Parthenocissus tricuspidata	
Sorbus aucuparia	<i>Boston Ivy</i>
Symphoricarpos	<i>Mountainash</i>
Viburnum dentatum	<i>Coralberry and Snowberry varieties</i>
Weigela	<i>Arrowwood</i>
	In variety

Hardy Climbing Vines

Mme. Galen
Trumpet Vine
(Campsis)

Our cheery, reliable Vines — some evergreen, many flower-bearing—transform bare walls and fences and fill in and soften new undeveloped plantings, creating a feeling of warmth, beauty and permanence. To aid you in starting a quick vine growth, we have preplanted in pots most of our varieties and many will climb 6 to 10 feet the first season.

For planting Vines, please see directions for planting bare root material given at the beginning of the Shrub list

Fast-growing Vines:

Campsis radicans.....Trumpet Creeper
Celastrus orbiculatus
Lonicera japonica halliana
Parthenocissus quinquefolia

Medium Fast-growing Vines:

Euonymus radicans
Hedera helix.....English Ivy
Parthenocissus tricuspidata...Boston Ivy
Wisteria chinensis.....Wisteria

Clematis Jackmanii

AKEBIA quinata. A very graceful, rapid growing vine. The foliage is extremely attractive and the rosy purple flowers in May are followed by ornamental fruit. F

2 yr. 90c. each, \$10.00 per doz.

CAMPISIS radicans (*Trumpet Creeper*). Orange-scarlet, trumpet-shaped flowers in clusters from July to September; rapid grower but does not flower young. Must be supported. F

2 year. \$1.00 each, \$10.00 per doz.

C. tagliabuana, Mme. Galen. An especially fine variety similar to above but with very large, striking salmon-red trumpets. We highly recommend this decorative vine. M

2 year. \$1.25 each

CELASTRUS orbiculatus (*Oriental Bittersweet*). Well known native Bittersweet. Splendid for fences and rocks or will make a shrub. The Oriental variety differs from the native only that it bears more berries. F

2 to 3 ft. \$1.00 each, \$10.00 per doz.

CLEMATIS dioscoreifolia (paniculata) (*Old-fashioned Clematis*). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen, and the feathery seeds are also decorative. Belongs to the home. F

2 year. 75c. each, \$7.50 per doz. | 3 year, heavy potted. \$1.25 each

C. Jackmanii (*Purple Clematis*). Large, purple single flowers from June to August. Striking. M

No. 1, 2 year. 90c. each, \$10.00 per doz. | 6 in. pots. \$1.25 each

C. montana rubens. The rosy red, Anemone-like flowers turn pink with age. Rich dark foliage. Vigorous grower, reaching 15 ft. Hardy. F

4 in. pots. \$1.25

EUONYMUS Fortunei Carrierei. A shrubby vine useful for foreground foundation planting or ground cover. Completely evergreen. M

10 to 12 in. 75c. | 12 to 15 in. \$1.25 | 15 to 18 in. \$1.75 | 18 to 24 in. \$2.50

E. Fortunei vegetus (*Evergreen Bittersweet*). Low spreading shrub, but will climb high on masonry walls. M

12 to 15 in. 75c. each, \$7.50 per doz. | 15 to 18 in. \$1.25 each

18 to 24 in. clumps. \$2.00 each

HEDERA Helix (*English Ivy*). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover plant in mass under trees or other shady or semi-shady locations. M

3 in. pots. 40c. each, \$4.00 per doz. | 4 in. pots, heavy plants. 75c. each, \$7.50 per doz.

LONICERA japonica Halliana (*Honeysuckle*). Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas. F

2 yr. 35c. each, \$3.50 per doz., \$25.00 per 100

PARTHENOCISSUS quinquefolia (*Virginia Creeper*). Vigorous, handsome Woodbine—particularly striking with its autumnal coloring. Especially recommended for walls and fences. F

2 year. 75c. each, \$7.50 per doz.

P. tricuspidata (*Boston Ivy*). Closely clinging vine with medium sized foliage turning red in Autumn. Its rapid growth and closely clinging habit make it most popular for brick, stone or stucco walls. M

2 year. 90c. each, \$10.00 per doz.

POLYGONUM Aubertii (*Chinese Flecevine*). Slender, vigorous vine for arbor, trellis, or fence. Curious silver-white flowers in tremendous profusion. F

2 year, field-grown. 90c. each, \$10.00 per doz. | 6 in. pots. \$1.25 each

WISTERIA sinensis (*Chinese Wisteria*). Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple. M

2 year. \$1.50 each | 4 year. \$2.50 each | 5 year. \$4.00 each | XX Heavy. \$7.50 each

Euonymus vegetus
Ideal Evergreen Vine for Walls

Wisteria Vines Provide Shade as well as Showy Blooms

Hedge and Screen Plants

EVERGREEN HEDGES

YEW or TAXUS HEDGES—the finest of all hedge materials. Deep, rich green all year round.

Upright Yew

Tree Shape	Each	Per 10	Per 100
15 to 18 in.....	\$4.75	\$45.00	\$425.00
18 to 24 in.....	6.00	57.50	550.00
2 to 2½ ft.....	7.50	72.50	700.00
2½ to 3 ft.....	9.00	87.50	850.00

Hicks Yew. Upright, berry-bearing Yew.

	Each	Per 10
2 to 2½ ft.....	\$7.50	\$72.50
2½ to 3 ft.....	10.00	97.50

Hatfield Yew. Broad, upright Yew.

	Each	Per 10
15 to 18 in.....	\$4.50	\$42.50
18 to 24 in.....	5.50	52.50
2 to 2½ ft.....	7.50	72.50

HEMLOCK, Canadian. Sturdy, thick, feathery hedge.

15 to 18 in.....	\$2.25	\$20.00
18 to 24 in.....	3.50	30.00
2 to 3 ft.....	5.00	45.00
3 to 4 ft.....	7.50	70.00

ARBORVITAE, American. Broad, heavy screen.

3 to 4 ft.....	\$5.00	\$45.00
6 to 7 ft.....	12.00	110.00
7 to 8 ft.....	16.00	150.00

Pyramidal. Tall, narrow screen.

5 to 6 ft.....	9.00	85.00
6 to 7 ft.....	12.00	110.00
7 to 8 ft.....	14.00	125.00

Barberry Hedge

Privet Hedge

Hemlocks as a Hedge. One of the Most Beautiful of All.

DECIDUOUS HEDGES

BARBERRY, Greenleaved. Red-berrying. Plant 1 ft. apart.
18 to 24 in.....\$6.75 per 12, \$45.00 per 100

REDLEAVED BARBERRY. Red foliage all Summer. Plant 1 ft. apart.

15 to 18 in.....\$6.75 per 12, \$45.00 per 100
18 to 24 in..... 9.50 per 12, 85.00 per 100

MENTOR BARBERRY. New improved Barberry. Plant 1 ft. apart.

15 to 18 in.....\$8.50 per 12, \$70.00 per 100
18 to 24 in.....10.00 per 12, 80.00 per 100

PRIVET, California Privet. The most commonly planted trimmed hedge.

2 to 3 ft.....\$2.50 per 12, \$20.00 per 100
3 to 4 ft..... 3.50 per 12, 27.50 per 100

Amur Privet. Somewhat hardier type.

2 to 3 ft..... \$2.75 per 12, \$22.50 per 100

Pachysandra

GROUND COVERS

GROUND COVERS:

Lonicera japonica Halliana	Honeysuckle
Pachysandra terminalis	Japanese Spurge
Vinca minor.....	Myrtle
See Roses for Trailing Varieties	

LONICERA japonica Halliana (Honeysuckle). Semi-evergreen ground cover, with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas. F
2 year.....35c. each, \$3.50 per doz.,
\$25.00 per 100

PACHYSANDRA terminalis (Japanese Spurge). Most popular evergreen ground cover plant; spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M
Rooted Cuttings

\$5.00 per 100, \$45.00 per 1000

2½ in. pots.....\$15.00 per 100

VINCA minor (Myrtle). Dense evergreen ground cover. Small, dark, green leaves on slender trailing branches. Blue flowers on late Spring. M

2 yr. field-grown. \$2.50 per doz., \$20.00 per 100

V. minor, Bowles Var. Similar to V. minor in form and evergreen habit of growth. Lavender-blue flowers all Summer. S

2 yr. field-grown. \$4.50 per doz., \$35.00 per 100

A Rosedale Planting Lasts Longer Costs No More

Almost anyone can plant a group of shrubs or trees to take up space or create a splash of color, but it takes careful planning and a knowledge of plant materials to create pleasing as well as practical settings.

Our Landscape Department is prepared to help you plan your grounds. No matter whether a radical or traditional, a simple or comprehensive planting, it is important that it be what *you* want. It is your home.

To have this personal service, simply come to the nurseries where we can discuss your needs and you can show us the types of plants you prefer—no struggling over plant names! In this way your preferences will be correlated right from the start with good, practical design.

Our
Planning
Service
can
accom-
plish
effective
use
of
plant
materials

For Lasting Beauty and Practicality Consult Rosedale's Landscape Planning Service

Our nurserymen can assist you right at the nurseries with a simple planting arrangement.

However, should more information concerning your grounds be necessary or desirable, our landscape representative will arrange for an appointment to visit you at your home.

The planting plan is then developed to scale at the drawing board and when completed it is submitted to you with an estimate of costs for your approval.

Consultation and plans are made without obligation on plantings involving \$100 or more of materials. You know in advance what it will cost and just what is being planted and where.

Upon receiving your approval, our planting crews with thoroughly skilled and experienced planting foremen will carry out exactly the design as planned.

Bearing Age Apple Trees for Landscaping as Well as Fruit

FRUIT TREES

Quantity prices on all Fruit Trees will be quoted on request specifying number needed

APPLES

One of the most satisfactory of all lawn trees is a well-proportioned Apple tree, attractive at all times and really gorgeous when in full bloom. It follows with a generous crop of one of the finest of all fruits.

BEARING AGE APPLE TREES

Again this year we are able to offer a small quantity of landscape-size Apples. These trees are 2 inches or over in caliper, 7 years old, and have been rigidly pruned and cared for and are ready to bear.

May be delivered locally with ball of earth.

Personal selection at the nurseries only

Planting Bare Root Material:

1. Plant at once digging hole deep and wide enough to admit roots completely spread out.
2. Loosen soil at bottom of hole and mix with a small amount of Driconure.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of Driconure, firming soil with feet.
5. Complete filling hole with soil leaving catch basin effect at top to hold water.
6. Water thoroughly twice a week.

Two-Year Old Apple Trees

The best size to plant for a good sized orchard but will take 4 years or more to bear. This stock is propagated from bearing orchards of superior strains. Plant 30 feet apart.

Selected No. 1 Grade. 11/16 inch caliper 5 to 7 feet, each \$1.75, 3 for \$5.00

In order to assist you in planning we state after each Apple whether it is self-fruitful, meaning it does not need cross pollination with another tree in order to bear fruit or, it does need a cross pollinator and which ones we recommend.

Baldwin. Well-known red. Winter Apple. Keeps well, fine flavor, juicy, crisp. Excellent for cooking and eating. Self-fruitful.

Cortland. An improved McIntosh type. Winter Apple with McIntosh flavor and quality but with tendency to cling to tree more than McIntosh. All-purpose Apple. Slightly self-fruitful. Cross pollinators: McIntosh, Red Delicious.

TWO-YEAR-OLD APPLE TREES—Continued

Delicious, Red. Large, dark red. Winter Apple.

Crisp, fine flavor. Good for cooking and eating.

Cross pollinators: Cortland, McIntosh.

Delicious, Yellow. Golden yellow. Winter Apple.

Firm, juicy. Good for cooking and eating. Self-fruitful.

Gravenstein, Red. Crisp, tart-flavored, solid dark red Autumn Apple. Popular for eating and cooking.

Self-fruitful.

McIntosh Red. Leading commercial variety for New York State. Attractive, red Winter Apple of white, tender, juicy flesh, fine eating and cooking.

Bears fairly young. Cross pollinators: Cortland, Red Delicious.

Northern Spy. Large, bright red Winter Apple of surpassed flavor; bears well but matures slowly.

Keeps very well. Excellent for cooking and eating.

Cross pollinators: Cortland, McIntosh. Delicious.

Red Astrachan. Crimson. Summer Apple. An old favorite for cooking and eating. Cross pollinators: McIntosh, Red Delicious.

Red Spy. Bright red. Winter Apple.

A more recent development of the Northern Spy, good for cooking and eating. Cross pollinator: Cortland, McIntosh, Delicious.

R. I. Greening. Large yellow-green Autumn Apple unexcelled for cooking. Bears well. keeps well. Self-fruitful.

Yellow Transparent. Pale yellow. Summer Apple; cooking. Cross pollinators: McIntosh, Red Delicious.

CHERRIES

1-year-old trees, 11/16 inch caliper, 4 to 6 feet

Top Grade, \$2.50 each, 3 for \$7.00

Plant any two Sweet Cherries for cross pollination.

Plant Sour Cherries 15 to 20 feet apart.

Plant Sweet Cherries 25 to 30 feet apart.

Black Tartarian. The favorite large, black sweet Cherry. Juicy and very rich. Early ripening—about late June.

Governor Wood. Large, light yellow and red sweet Cherry. Excellent for home use. Very productive. June.

Montmorency. Best sour Cherry. Productive, hardy, finest flavor. Early, about July. Self-fruitful.

Schmidt's Bigarreau. Very large, purplish-red sweet Cherry of splendid flavor; early, about July.

Windsor. Delicious, large, firm purple; almost black Cherry. Very vigorous growing and productive.

Hardest Sweet Cherry. Excellent for July eating and canning.

Baldwin Apple

CRABAPPLE

Selected, No. 1 Grade, 11/16 inch caliper, 5 to 7 feet—\$1.75 each, 3 for \$5.00

These varieties are self-fruitful. Plant 15 to 20 feet apart.

Dolgo. Handsome Red Crabapple in early September. Hardy, productive, juicy; superb for ruby-red jelly, pickling, and exceptionally good for cider.

Hyslop. Brilliantly colored purplish-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo.

FRUIT TREES—Continued

PEACHES Selected, 1-year Budded Trees, 11/16 inch caliper, 3 to 5 feet—\$1.25 each, 3 for \$3.00

The varieties listed are self-fruitful. Plant 15 to 20 feet apart.
Belle of Georgia. Well-known white freestone Peach ripening late August. A rich creamy Peach with red blush.
Elberta. Most popular and best known yellow Peach. Handles well, of good flavor, juicy and freestone. Ripens early September.
Golden Jubilee. Extremely popular, hardy new Peach. Large, golden-yellow, red-blushed fruit. Freestone. Best early yellow Peach, ripening about mid-August.
Hale-Haven. Beautifully colored yellow Freestone. Very hardy and vigorous Ripens about ten days ahead of Elberta.
Red Haven. Excellent flavor of the South Haven and Hale-Haven but ripens much earlier—in mid-August. Earliest yellow Freestone. Yields well and is hardy.
Valiant. A juicy, yellow Freestone of good quality, similar to Elberta. Yellow with red blush. Early September.

APRICOT

Moorpark. Large, round fruit. Orange with red cheek. Rich flavored, juicy flesh. Self-fruitful. Plant 15 to 20 ft. apart. 2 yr., 11/16 in. caliper, \$2.00

QUINCE No. 1. Grade

Orange. An excellent large round golden yellow fruit. Fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 ft. apart. 1 yr., 1/2 in. caliper, \$2.00.

PLUMS Selected, First-Class Trees, 2 years old, 11/16 inch caliper—\$2.25 each, 3 for \$6.00

Abundance. Large fruit, amber turning to red. Very tender, sweet and juicy—good for canning. Early August.

Burbank. Large cherry-red Plum ripening about mid-August. Hardy, good producer.

Stanley. Large, deep bluish-purple Prune with excellent sweet flavor. Best for commercial or home use. Midseason, about September.

For Cross Pollination:

Abundance and Burbank are Japanese varieties and should be planted together for pollination.

Stanley, an American variety, is self-fruitful; American and Japanese varieties do not mix. Plant 15 to 20 feet apart.

PEARS Selected, No. 1 Grade—2-year-old trees, 11/16 inch caliper—\$2.25 each, 3 for \$6.00

All Pears are self-unfruitful—so plant with another Pear for cross-pollination.

Bartlett and Seckel are incompatible for cross-pollinating each other, so other varieties should be used.

Plant 15 to 20 feet apart.

Montmorency Cherry

Bartlett. Most popular all-purpose Pear. Large golden yellow fruit with pale blush. Excellent flavor. August–September.
Beurre Bosc. Large, deep yellow overspread with russet. Unsurpassed in quality and flavor. White fleshed. September.
Clapp's Favorite. Resembles Bartlett—large yellow fruit with brown flecks. Ripens a week or two earlier than Bartlett in August.
Flemish Beauty. Fine large, sweet juicy fruit. Strong grower and good bearer. September–October.
Seckel. One of the most delicious and ever popular varieties. Small, russet brown Pears, ripening in October. Bears abundantly.
Sheldon. Large, round, russet and red Pears of first quality. Delicious. October.

DWARF FRUITS Dwarf Fruits are very scarce and we regret we can offer only a very limited supply this year. These are on Malling root stocks and will remain small and bear younger than standard types.

APPLES: Baldwin, Cortland, McIntosh, Delicious, Yellow Transparent. 2 yr., 9/16 in. caliper, \$3.75 each.

PEARS: Bartlett, Clapp's Favorite, Seckel. \$3.00 each

Espalier Trees *Unique for Their Beauty, Utility and Delicious Fruit*

Beauty your home with an orchard growing on vines. Fruit trees grow in artistic, vine-like patterns against any wall, trellis or fence. They yield an abundance of delicious fruit that is often larger and richer than fruit from regular trees.

These genuine Espalier Fruit Trees are propagated from true dwarf roots and scions which limit their size and growth. They require no more care than a small shrub or climbing Rose. Many of these 7-year-old trees have a spread of 10 feet or more and up to 7 feet high. All are dug with a generous ball of earth and for this reason no shipping orders can be taken. Delivered anywhere in Westchester County.

Not only are there many sizes and styles, but many varieties of Apples and Pears. For this Spring planting only, they are priced from \$12.50 to \$25.00 each.

Stanley Prune

Bartlett

Clapp's Favorite

SMALL FRUITS

For Success with Small Fruits

1. Entire planting area should be ploughed or spaded to 8 inches or more depth.
2. Open a narrow trench and mix a liberal quantity of Driconure in bottom of trench.
3. Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.
4. Replace one-half soil and tamp firmly, adding more Driconure. Fill trench, leaving catch basin effect for watering. Water thoroughly twice weekly until started.

BLACKBERRIES

Alfred. The Mammoth Blackberry. For the home garden, Alfred is the ideal Blackberry. Tremendously large berries from 1½ to 1¾ in. long, practically free from seeds and extremely juicy. Heavy, 2 yr. transplants, 25c. each, \$2.50 per doz.

CURRENTS

New Red Lake. Finest of all Red Currants. The berry is unusually large in size and superior in quality. The clusters are long and filled out to the top. Heavy yields. 2 yr. 45c. each, \$4.00 per doz.

We recommend for a family of four the following number of plants—depending, of course, on your appetite for fruit:

Blackberries.....	1 dozen plants
Blueberries.....	1 dozen plants
Currants.....	6 plants
Gooseberries.....	6 plants
Grapes.....	4 to 10 plants
Red Raspberries.....	1 to 2 dozen plants
Black Raspberries.....	1 dozen plants

Red Lake Currants

BLUEBERRIES

Cultivated—Producing Giant Berries

Cultivated Blueberries are one of the most satisfactory fruits for a wide variety of conditions. These Blueberries—a Rosedale Specialty—we offer in the most delicious, largest and best growing varieties basing our selections on our familiarity and many years experience with them in the field.

Every order for a dozen or more will include each of these fine varieties.

We offer large stock of ready-to-bear plants now 3 years old and set with fruit buds in the following varieties:

Cabot **Pemberton** **Rancocas**
Rubel **Concord**

3 for \$4.00, 5 for \$5.50, 12 for \$11.50—1½-2 ft. tall
Each order will contain three or more varieties for cross-pollination

Planting: Blueberries are hardy and need no special care. Dig hole large enough to accommodate the roots spread out. Mix plenty of peat moss or humus with the soil when planting. Plant in full sun or partial shade and mulch. This mulch is extremely important.

Uses: Blueberries are excellent for eating as fresh berries, for cooking as in pies, for freezing and for landscape purposes. The beautiful color changes in the foliage in the Fall, coupled with the bushy form of the plants makes it a handsome plant in the landscape.

Alfred Blackberries

GOOSEBERRIES

Poorman. A red Gooseberry of good quality. Prolific grower of medium size. Midseason. 2 yr., 45c. each, \$4.00 per doz.

HARDY GRAPES

Caco. Our finest Grape. Wine red with sweet, delicious flavor. Large berries earlier than Concord. 2 yr., 75c. each.

Concord. Most successful in this section. Blue-black; mid-September. 2 yr. 50c. each. 5 to 6 ft., 4-yr.-old Bearing age \$2.00 each.

Fredonia. Earliest good black Grape. Vigorous, hardy, productive. One of the best American red juice varieties. 2 yr. 50c. each; 4 yr. \$2.00 each.

Niagara. Pale green, sweet, ripens with Concord about mid-September. 2 yr. 50c. each. 4 to 5 ft. 4-yr.-old Bearing age \$2.00 each.

Portland. A newer white Grape and one of the best for this section. Very early with a delicious flavor. About late August. 2 yr. 50c. each, 4 yr. \$2.00 each.

Indian Summer Raspberries

No. 863

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE AND MARKETS

C. CHESTER DU MOND, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of ROSEDALE NURSERIES OF EAST VIEW, County of WESTCHESTER, State of New York, has been duly examined in compliance with the Agriculture and Markets Law, and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until October 1, 1950, unless revoked before that date.

Dated Albany, N. Y., Sept. 15, 1949

C. CHESTER DU MOND, Commissioner

A. B. BUCHHOLZ, Director, Bureau Plant Industry

We attach copy of our certificate on all our shipments. Look for it. It is your guarantee backed by our State Department of Agriculture.

RASPBERRIES

Indian Summer. Red EVERBEARING. A grand new variety produced at Geneva Experiment Station. Produces a crop in mid-June and then again in early September until freezing weather. Vigorous. Hardy at Geneva. 2 yr. transplants, 40c. each, \$3.50 per doz.

Marcy. Red. Considered by many as the finest red Raspberry yet introduced. The fruit is very large, firm and of high quality. The canes are strong, thrifty and hardy. Introduced by New York State Agricultural Experiment State. Late June. 2 yr. transplants, 35c. each, \$3.00 per doz.

Taylor. A new red Raspberry. Plants are vigorous, hardy, and productive. Long, conical shape, firm, thick flesh. Fairly early, about late June. 2 yr. transplants, 35c. each, \$3.00 per doz.

Cumberland. Standard midseason Blackcap, ripening about late June. Most widely planted variety grown for market and home use. Appearance and quality of fruit is superior. 2 yr. transplants, 30c. each, \$3.00 per doz.

Fredonia Grapes

GLADIOLUS

There is nothing in the garden to equal the stalwart beauty of these colorful flower spikes. We offer extra fine varieties in an increased range of colors. Our bulbs are thrip-free and besides the regular large size bulbs we have the **Jumbo**—extra large—bulbs. Plant anytime from April to July for brilliant blooms this Summer until frost.

PLANTING:

Plant in full sun 3 to 6 inches deep, depending upon the size of bulb and texture of soil. Rich, well-drained loam with applications of fertilizer will encourage a more showy display of blooms. Bulbs should be dug in the late Fall after a killing frost—first cutting off the tops close to the ground. Dry and shake off soil. Keep in a dry place until replanting the next Spring.

NO. 1 BULBS

Excellent bulbs of first grade size and quality. Many people might consider these Jumbo bulbs, they are so large and firm.

Offered in the following varieties in groups of 25 BULBS—no less than 5 of any one variety—\$2.25, 100 for \$6.00, 1000 for \$55.00, postpaid

Picardy	Salmon-pink
Red Charm	Scarlet
Harmon	Vermillion
Mother Kadel	Bright yellow
Bernice	Buttercup yellow
White Fantasy	Ruffled white
Silentium	White, red throat
Roman Gold	Orange
Colossus	Pink and red; huge
Lavender Queen	Perfect lavender
Maid of Orleans	Pure white
Wanda	Lemon yellow
Margaret Beaton	Snow-white and red
Surfside	White and lavender lines

JUMBO BULBS

These are truly the largest, most handsome "Glad" Bulbs we have ever carried.

Amazing size and finest quality in following varieties in groups of 25 BULBS—no less than 5 of any one variety—\$2.75, 100 for \$7.95, 1000 for \$75.00, postpaid:

Picardy	Salmon-pink
Red Charm	Scarlet
Spotlight	Deep yellow, red throat
Harmon	Vermillion
White Gold	Creamy white
Iraq	Smoky lavender
Purple Supreme	Purple with silvery edge
Bernice	Buttercup yellow

White Fantasy	Pure white
Silentium	White, red throat
Roman Gold	Orange
Lavender Queen	Lavender

25 bulbs (5 each).....\$2.00

50 bulbs (10 each)..... 3.75

Postpaid

WHY WE USE BOTANICAL NAMES

The Latin or Botanical names are used instead of general popular names to identify our plants in order to assure your receiving the exact variety you want. For example, if someone should ask us for Snowball—what should we offer? Viburnum tomentosum or Hydrangeas. "Snowball" is a popular term for both.

Furthermore, some plants have no popular names but only the horticultural. So it is for your protection that we use horticultural names. Common names are shown, wherever possible, immediately following the Botanical name.

Our Guarantee:

We guarantee all nursery stock to be in first-class condition when delivered to the customer. Please advise us promptly of any damage or loss in handling.

We guarantee our nursery stock to be true to name and use every care to properly label as sold. Should any prove untrue we agree to replace or refund purchase price.

Provided account is paid in accordance with agreed upon terms and plants have received reasonable care, we will replace at one-half price of the plants, any woody plants furnished which if planted in the Spring fail to survive through the Summer, or if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above plus the cost of planting.

ROSEDALE PLANT FOODS STIMULATE GROWTH

3 AGRICO Fertilizers for Better Lawns and Gardens

Each of these three special-purpose AGRICO Fertilizers is made to do its own job and do it better than any all-purpose fertilizer could possibly do. Yet Agrico costs no more . . . is more economical to use . . . gives you more value, per pound and per dollar.

Agrico for Lawns, Trees and Shrubs

If you have a good lawn, keep it that way by feeding it with AGRICO every Spring and Fall. Use Agrico in rebuilding lawns. Also feed your trees and shrubs. Use 30 lbs. per 1000 square feet.

5 lbs.....	\$0.45	25 lbs.....	\$1.60
10 lbs.....	.80	50 lbs.....	2.65
100 lbs.....	\$4.75		

Agrico for Gardens

Use this special-purpose AGRICO for flowers of greater health and beauty—and for larger yields of vegetables, richer in minerals and vitamins. Use 40 lbs. per 1000 square feet.

5 lbs.....	\$0.45	25 lbs.....	\$1.60
10 lbs.....	.80	50 lbs.....	2.40
100 lbs.....	\$4.25		

Agrico for Broadleaf Evergreens

Rhododendrons, Azaleas and other acid-loving plants must be fed with care. This AGRICO provides all needed plant foods and also acidifies the soil essential for best results. Use approximately 1½ lbs. per 1000 running feet.

10 lbs...	\$1.10	50 lbs..	\$3.40
25 lbs...	2.10	100 lbs..	5.50

COMPLETE INSTRUCTIONS PRINTED ON EVERY BAG

AGRINITE

An all organic fertilizer; 3¼% nitrogen, 100% organic. Use at rate of 4 lbs. per 100 square feet. Agrinite is not an animal manure or sewage by-product—it is clean, dry and grease-free, with no offensive odor. It is easy to apply by hand or by spreader, being carefully ground and screened to assure a free-flowing product. Whenever you need all-organic nitrogen, use Agrinite and see for yourself how efficient and economical it really is.

25 lbs.....	\$1.40	80 lbs.....	\$3.75
-------------	--------	-------------	--------

DRICONURE

Organic fertilizer made up of three-fourths dehydrated poultry manure and one-fourth peat moss, packed in tight paper bags for easy storage. Easy to handle and may be used on lawns, gardens both vegetable and flowers, and shrubs and evergreens. We highly recommend it as economical and of lasting value if used liberally. Cannot burn if carelessly applied.

50 lb. bag.....	\$2.25
-----------------	--------

AGRI-LIME

A finely ground limestone for lawns, gardens and flower beds.

50 lbs.....	\$0.90	100 lbs.....	\$1.50	1 ton.....	\$18.00
-------------	--------	--------------	--------	------------	---------

HOLLAND HORTICULTURAL PEAT MOSS

Three Convenient Sizes

Holland Peat is once again available in quantity. This is clean, compressed peat so valuable as a mulch or used liberally in planting Broad-leaved Evergreens, Blueberries, etc.—in fact, a good soil conditioner for almost anything. Lightens heavy soils, retains moisture in light soils, stimulates root development.

Handy Cartons—contains 3 bushels before compressing... \$2.00 each
Half Bales—contains 9 bushels before compressing... 3.75 each
Standard Bales—contains 26 bushels before compressing... 5.50 each

NATURAL HUMUS

A screened Natural Humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting where top soil is poor. Sold in bulk.

Per cubic yard... \$9.50—Packed in sacks approximately 80 lbs. \$1.50
BONEMEAL, SHEEP MANURE, ALUMINUM SULPHATE and SUPERPHOSPHATE available at current prices. Our Fertilizer Department will be glad to advise you.

GOOD-RITE z.i.p.—A Deer Repellent

Applied by spraying, it will protect vegetables, fruit trees, evergreens, etc. from browsing deer. We have used this material and found it very effective in our nursery. Deer are fond of the best plants and one application of z.i.p. is usually sufficient to protect these plants for a season.

Dilute with water to apply. Can save hundreds of dollars in protecting your plant materials.

5 lbs.....	\$3.75	50 lbs.....	\$35.00
------------	--------	-------------	---------

ESPOMA

A new and complete organic fertilizer. We believe Espoma to be one of the best organic fertilizers on the market. Peat Moss, Manure and Bonemeal, etc. are used to give this soil conditioner and fertilizer its long-lasting value.

25 lbs.....	\$1.45	50 lbs.....	\$2.45	100 lbs.....	\$3.95
-------------	--------	-------------	--------	--------------	--------

Mail Orders:

While ours is primarily a local business within our truck delivery area we can handle Parcel Post, Express and Freight deliveries of all plants except those requiring a ball of earth.

No Mail Orders can be accepted for less than \$5.00 except on Bulbs.

No C.O.D. shipments will be made unless order is accompanied by a 25% deposit.

All shipping charges must be borne by the customer except where otherwise noted.

Please be sure to give correct shipping address and instructions.

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please address all mail orders and communications to our Post Office Address, Eastview, N. Y.

SACCO 4-12-4

A balanced fertilizer with a considerable organic content that does not easily burn and has value as a soil conditioner as well.

25 lbs.....	\$1.50	50 lbs.....	\$2.75	100 lbs.....	\$3.95
-------------	--------	-------------	--------	--------------	--------

WEDO—Double Acting Lawn Fertilizer

KILLS WEEDS—FEEDS GRASS

Wedo is a specially formulated mixture of fertilizing elements (6-10-4) and 2-4-D; a most effective combination in weed control. Kills most broadleaf weeds and feeds grass at the same time. Easy to apply.

25 lbs.....	\$2.75	50 lbs.....	\$4.95
-------------	--------	-------------	--------

DU PONT GARDEN PRODUCTS

We offer a very complete line of DuPont chemicals for control of insect pests and fungous diseases. These materials are effective and easy to use. We highly recommend keeping an adequate supply on hand at all times and using as frequently as necessary.

DU PONT VEGETABLE GARDEN DUST

Recommended for vegetables. A complete insecticide and fungicide—may be used either as dust or spray.

We have recommended and sold **Scott's Seed** for over 15 years and we believe there is no better seed available on the market today. The clean, weed-free seed and well-balanced fertilizer make it simple to produce a velvety lawn which is the envy of your neighbors. **Scott Seed** is famous for its high germination and freedom from weeds and is, therefore, more economical. Even greater economy can be effected by using a **Scott Spreader** for sowing seed and spreading fertilizer.

SCOTT'S LAWN SEED. For lawns in full sun, light shade. Triple cleaned, 99.91% weedfree seed.
